The Appliance Repair Professionals Announce Fall Maintenance Tips to Help Homeowners Avoid Costly Repairs

TEMPE, AZ, UNITED STATES, September 17, 2025 /EINPresswire.com/ -- The [Appliance Repair](#) Professionals today released a seasonal checklist designed to help households prepare their

appliances for colder weather. The company emphasized that preventative steps can reduce [emergency appliance repair](#) calls and extend appliance lifespans.

“As we head into fall, we see a surge in preventable issues like [oven repair](#) — ovens that fail just before holiday gatherings, clogged dryer vents, and refrigerators running inefficiently,” said [Spokesperson Name], spokesperson for The Appliance Repair Professionals. “By addressing small issues early, families can avoid expensive breakdowns.”

The company’s top three fall recommendations are:

Test Ovens & Stoves Early – Ensure cooking appliances are working before holiday meals.

Clean Dryer Vents – Lint buildup is a leading cause of house fires.

Inspect Refrigerator Seals – Worn seals drive up utility costs and waste food.

According to The Appliance Repair Professionals, these steps not only improve safety but also reduce energy costs at a time when many families are facing higher household expenses.

About The Appliance Repair Professionals
