The awards recognize TrainingToday's innovative approach to delivering engaging, compliance-focused training that drives measurable results for organizations across industries.

One standout example is the Nelson-Atkins Museum of Art, which partnered with TrainingToday to modernize its

employee training program. By leveraging the HR All-Access library and TrainingToday's intuitive learning management system, the museum replaced manual training processes with automated course assignments, interactive content, and streamlined reporting. The implementation reduced the administrative burden, improved compliance rates, and boosted employee engagement.

"TrainingToday had all the content needed in one convenient library. That, combined with the dedicated customer service team, made TrainingToday the most cost-effective solution." Karrah Merritt, Director of Talent and People Development at the Nelson-Atkins Museum of Art.

TrainingToday distinguishes itself with:

A learning management system (LMS) that supports automated scheduling, real-time reporting, and configurable learning paths.

Courses designed to support engagement and retention through interactive knowledge checks, scenario-based learning, and follow-up reinforcement.
