Virtual DOT SAP for Drivers | 2-Day RTD Process from \$113

“Our goal is to eliminate financial and logistical barriers for employees who need a DOT SAP evaluation,” said

Jacques Khoroizian. “We combine affordability with accessibility, ensuring drivers and other safety-sensitive workers can complete their Return-to-Duty program quickly, without unnecessary costs or delays.”

Virtual SAP Evaluations for Convenience and Compliance

Unlike traditional in-person assessments, AACS Counseling’s virtual SAP evaluation process is fully online and compliant with DOT regulations. This nationwide accessibility saves clients both time and travel expenses, making it easier for employees and employers to meet regulatory requirements.

The process includes three straightforward steps:

1. Schedule and complete an initial SAP evaluation virtually.
2. Fulfill the recommended education or treatment plan.
3. Complete a follow-up SAP evaluation and then take the DOT-required Return-to-Duty test.

Once the negative test result is reported, employees are fully cleared for safety-sensitive duty.

AACS Counseling’s expertise extends to all DOT-regulated agencies and testing programs, including:

- DISA SAP Program
