What Are The Core Growth Drivers Shaping The Future Of The Doors Market?

The unprecedented global urbanisation is a significant driver for the expansion of the doors market. This urbanisation relates to the transition of people from rural to urban environments and the rise in residential concentrations in city areas. The increase in urbanisation is advancing the need for new non-residential and residential structures, thereby creating opportunities for the growth of the doors market. For instance, the Department of Economic and Social Affairs, United Nations predicts that by 2050, urban areas will be home to 68% of the world's population – around 2.5 billion people. Consequently, the unprecedented urbanisation globally will propel the door market.

Which Companies Are Currently Leading In The Doors Market?

Major players in the Doors include:

- Allegion plc
- Andersen Corporation
- Assa Abloy AB
- Jeld-Wen Inc.
- KONE Corporation
- Masco Corporation
- Masonite International Corporation
- Pella Corporation
- PGT Innovations Inc.
- Simpson Door Company

What Are The Top Trends In The Doors Industry?

The rise of technological innovations is a major trend that is gaining traction within the doors market. Such innovations are a product of our growing understanding and development of technology. In a bid to propel market expansion, firms within the doors industry are creating novel technologies. For instance, Assa Abloy, a Swedish company known for its wide range of door-related products and services, began development of automatic sliding doors equipped with digital displays in April 2021. This was achieved using the cutting-edge organic light-emitting diode display technology from LG Electronics. These doors have the capability to display imagery and videos through a variety of technological means.
