

Trinity Forge Celebrates 70 Years of Forging Excellence in Mansfield, Texas

MANSFIELD, TX, UNITED STATES,
September 23, 2025 /

EINPresswire.com/ -- [Trinity Forge](#), one of Mansfield's oldest active manufacturing businesses, proudly announces its 70th anniversary. For the past 55 years, Mansfield has been home to the company, and generations of local craftspeople have helped forge its legacy of quality and resilience.

Founded in 1955, Trinity Forge has grown from a small forging shop into a versatile manufacturer serving industries from aerospace and defense to transportation and heavy equipment. Its forged and machined parts range in size from a few ounces to more than 100 pounds and are trusted by customers nationwide.

"For seven decades, Trinity Forge has been shaping metal and shaping progress," said [John Fairbanks](#), CEO & President of Trinity Forge. "This milestone is about more than just the parts we produce. It's about the generations of families who've built their careers here and the community that's supported us through the years."

The defense sector now represents 70% of the company's work, supplying leading firms such as Boeing, Lockheed Martin, General Dynamics, Repkon USA, BAE Systems, and RTX. Yet Trinity Forge remains firmly rooted in Mansfield, where it continues to invest in workforce development and the next generation of skilled Texas manufacturers.

"Manufacturing today requires both innovation and durability," added Fairbanks. "Our role is to provide the highest quality forged components that keep America's planes flying, vehicles moving, and infrastructure strong."

As Trinity Forge celebrates seventy years, the company is looking ahead to the next generation of
