

# Yeast Probiotic Ingredient For Animal Market Size, Share & Trends Analysis Report By Product

*The Business Research Company's Yeast Probiotic Ingredient For Animal Global Market Report 2025 – Market Size, Trends, And Global Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED KINGDOM, September 19, 2025  
/EINPresswire.com/ -- What Is The Yeast Probiotic Ingredient For Animal Market Size And Growth?

The Business  
Research Company

The Business Research Company

The market size of the yeast probiotic ingredient for animal has seen robust growth in the past few years. The market is projected to expand from \$6.08 billion in 2024 to \$6.68 billion in 2025, with a compound annual growth rate (CAGR) of 9.9%. This growth in the historical phase can be

credited to the understanding of the advantages of probiotics, increased concerns about antibiotics, research initiatives, industry acceptance and verification, and support and approval from regulatory bodies.

*The Business Research  
Company*

The market for yeast probiotic ingredients for animals is projected to experience rapid expansion in the coming years, reaching a size of \$10.25 billion by 2029 with a compound annual growth rate (CAGR) of 11.3%. This predicted growth in the forecast period is largely due to factors including wider market reach in emerging regions, increased investment in research and development, a shift

in consumer preferences towards natural products, supportive regulatory policies and guidelines, and the growth of livestock production. Key trends anticipated for the forecast period extend to an increasing demand for alternatives to antibiotics, an emphasis on improving livestock gut health, evolving regulations and compliance, the growing need for natural supplements in animal feed, and the expansion of livestock production.

What Are The Current Leading Growth Drivers For Yeast Probiotic Ingredient For Animal Market?

The [yeast probiotics for animal market](#) is set to expand due to the rising demand for eggs and poultry meat. Poultry meat, which includes the edible components of various domesticated birds like chicken, turkey, duck, geese, Japanese quail, and guinea fowl, is an integral part of many diets. Probiotics are commonly incorporated into poultry feed to shield the birds from diseases and boost their immunity, thereby increasing egg and meat production. The United States Department of Agriculture (USDA), a federal agency that monitors agriculture, food, and rural development, published a report in April 2023. This report indicated that chicken meat consumption had grown from 17,164 metric tons in 2021 to 17,674 metric tons in 2022. Therefore, the escalating demand for eggs and poultry meat is fueling the yeast probiotics for animal market's expansion.

Which Companies Are Currently Leading In The Yeast Probiotic Ingredient For Animal Market?

Major players in the Yeast Probiotic Ingredient For Animal include:

- Chr. Hansen A/S
- Koninklijke DSM N V
- DuPont de Nemours Inc.
- Evonik Industries AG
- Novozymes A/S
- Lallemand Inc.
- Kemin Industries Inc.
- Kerry Group PLC
- BASF SE
