EINPresswire.com/ -- CONVO GPT, headquartered in Greenville, South Carolina, today announced the launch of its most disruptive offering yet: the \$99 AI Employee, The \$99 Receptionist, and the \$99 AI Appointment Setter. For the first time ever, businesses can access fully automated 24/7 customer engagement without monthly subscription fees—paying only 20 cents per minute of usage.

Setup is simple and transparent. Each AI system is activated for just \$99 plus a one-time \$50 A2P registration cost, with no other hidden fees. From there, businesses pay only for the minutes they use.

What sets CONVO GPT apart is its ability to integrate seamlessly with any program. Through advanced webhooks and Zapier connections, the system can communicate with virtually any software on the market. Whether it's a CRM, scheduling platform, marketing tool, or custom workflow, CONVO GPT acts as the connective tissue that brings full automation to life.

“

“AI employees work harder, faster, and never sleep. For \$99, you can put one to work today,” said Jeremy David, CEO of CONVO GPT.”
