

I Am God: Louis Gale's Transformative Work Explores the Human Concept of a Higher Being

LOS ANGELES, CA, UNITED STATES, September 22, 2025 /EINPresswire.com/ -- Renowned author [Louis Gale](#) invites readers to explore the limits of consciousness, spirituality, and human ideology in his newly published works, *A Written Self-Portrait 'On Psychosis': A Novella Vol. I* and *A Written Self-Portrait 'On Tragedy': Volume II*. These first two installments of his ambitious six-part series dive fearlessly into some of humanity's most profound questions: the nature of God, the role of human perception in divinity, and the psychological and spiritual dimensions of belief.

"Is it truly 'psychotic' for a human being to claim they are God, or to know God? Is it really 'tragic' to dwell in the ethereal spaces where higher consciousness, spirituality, and existential understanding converge? My work doesn't avoid these questions; it embraces them. Through deep introspection and philosophical exploration, I seek to bridge the impossible gap between higher-dimensional thought and the tangible human experience," explains Gale.

Gale's series also ventures into the abstract yet perceptible: the resonating frequencies of auras, the spectrums of "felt truth," and the profound possibilities of human awareness beyond ordinary perception. His work challenges readers to consider that the metaphysical might not just exist, but might be accessible to those willing to look deeply.

The first two volumes, *On Tragedy* and *On Psychosis*, establish the foundation for what promises to be a thought-provoking exploration of consciousness, spirit, and the human drive to comprehend the incomprehensible. Each book is a self-portrait of intellectual courage, inviting readers into a world where philosophy, spirituality, and psychology collide.

I am God

Since no matter what level you talk about god – even at the god level, which I think it's clear to say "I AM", since I just wrote what I actually said, as the god that I AM... but even at this "god level"...

It's still HUMAN! Are you freaking kidding me?!!

How much longer are we going to be living in the dark ages of not allowing ourselves to be fully aware of the actual truth this world is about – and this truth has nothing to do with religion – it has nothing to do with god, faith or belief in a higher power...
