

Rhino Web Studios Named the Number One Web Design Firm in NOLA — Leading Businesses Into the Future of AI Search

NEW ORLEANS, LA, UNITED STATES,
September 18, 2025 /

EINPresswire.com/ -- [Rhino Web Studios](#), a leader in web development and digital marketing, has been officially recognized as the #1 web design firm in New Orleans — based on Google search rankings for the highly competitive keyword “New Orleans Web Design.”

For more than two decades, Rhino Web Studios has been building a reputation for delivering high-quality websites, innovative marketing strategies, and measurable results for businesses across Southeast Louisiana. This #1 Google ranking underscores the firm’s longstanding position as the region’s most trusted partner for digital growth.

“

Being at the top of Google is not just a vanity metric...It’s proof that our strategies work.”

Brett Thomas

“Being at the top of Google is not just a vanity metric,” said [Brett Thomas](#), Founder of Rhino Web Studios. “It’s proof that our strategies work. The same techniques that put Rhino at #1 are the ones we use to elevate our clients — helping local businesses outrank their competition, attract customers, and grow.”

But Rhino isn't stopping at search engines. With artificial intelligence now shaping the future of online discovery, the company is already adapting strategies to help businesses show up in AI-powered search tools like ChatGPT, Perplexity, and Google's AI Overviews.

"AI search is the next frontier," Thomas added. "Tomorrow's customers won't just Google a business — they'll ask an AI assistant. That means companies need more than a website. They need content, authority, and visibility that AI recognizes and repeats. That's where we come in."

The achievement highlights Rhino Web Studios' mastery of both current and emerging digital strategies:

Search Engine Optimization (SEO): Delivering consistent, top-of-page results on Google.

Content Authority Building: Creating press releases, blogs, and brand mentions that train both search engines and AI systems to recognize expertise.

AI Search Optimization: Preparing clients to be the top answer when users ask AI tools for recommendations in their industry.

With nearly 25 years of experience, Rhino Web Studios has helped hundreds of Louisiana companies embrace the digital era. Now, the firm is leading the way in ensuring those same businesses are ready for the AI-driven era of search.

About Rhino Web Studios

Founded in 2001 and headquartered in New Orleans, Rhino Web Studios is the Gulf South's leading web design and digital marketing agency. Specializing in websites that don't just look great — they rank — Rhino helps businesses dominate search engines today while positioning them to thrive in tomorrow's AI-driven landscape.
