

# GC Talk Limited Launches VPN101.com.hk to Empower Hong Kong Internet Users with Data-Driven VPN Reviews

---

KENNEDY TOWN, HONG KONG, HONG KONG, September 21, 2025 /EINPresswire.com/ -- GC Talk Limited, a Hong Kong-based company dedicated to providing trusted and independent information, today announced the official launch of vpn101.com.hk. The new platform is a dedicated resource for comparing and reviewing various Virtual Private Network (VPN) providers, specifically tailored to the needs of the Hong Kong market.

In an increasingly digital world, Hong Kong users face unique challenges, from geoblocking that restricts access to global streaming libraries to concerns over online privacy and security. Vpn101.com.hk is designed to be the go-to resource for local users seeking a clear, data-driven approach to selecting the right VPN. The site's content, written in traditional Chinese, focuses on helping users unblock popular services like ChatGPT and Google Gemini, as well as access diverse content libraries on [Netflix](#) and Disney Plus. Popular VPN providers like [NordVPN](#), [Surfshark VPN](#), and Proton VPN are among those being reviewed and compared.

"We saw a significant gap in the market for a reliable, unbiased, and locally-focused VPN comparison site," said George Tam, co-founder and Senior Editor at GC Talk Limited. "Many of the existing reviews are not relevant to Hong Kong users, and they often lack the in-depth, hands-on testing that provides a true 'apples-to-apples' comparison. Our mission is to provide clear, tested data so our readers can make informed decisions and enjoy a truly open internet experience."

Vpn101.com.hk stands out by conducting rigorous, real-world tests on each VPN provider. The site's team of experts evaluates performance metrics such as speed, security protocols, server locations, and streaming capabilities. This provides users with objective and transparent data, a welcome alternative to the often confusing and marketing-heavy information found elsewhere.

"Online freedom and privacy are fundamental rights, and our aim is to empower Hong Kongers to navigate the digital landscape with confidence," said Eric Li, co-founder and Senior Writer at GC Talk Limited. "Whether it's a student needing to access academic resources or a family wanting to watch their favorite shows from around the world, a reliable VPN is a critical tool. Vpn101.com.hk will be a trusted guide, offering practical advice and a breakdown of which VPNs work best for specific purposes, all in a language and context that resonates with the local community."

The launch of vpn101.com.hk follows the success of GC Talk Limited's previous venture, TalkMoney.com.hk, a financial literacy platform for Hong Kong. Both projects reflect the company's commitment to delivering high-quality, actionable information that helps local users make smarter choices in their daily lives.

Vpn101.com.hk is now live and can be accessed at [vpn101.com.hk](https://vpn101.com.hk).

#### About GC Talk Limited

GC Talk Limited is a Hong Kong-based digital media company focused on creating trusted, independent, and high-quality online resources. The company's mission is to provide a local perspective on a range of complex topics, empowering Hong Kong users with the knowledge they need to make well-informed decisions.
