

BizjetMobile Unveils Bizjet-Ai, Instant Answers at 45,000 Feet Without the Wi-Fi Bill

Next-Generation Inflight AI Puts Real-Time Information in Passengers' Hands Without Browsing or Data Drain

NEW YORK, NY, UNITED STATES,
September 22, 2025 /

EINPresswire.com/ -- BizjetMobile, the award-winning innovator in private jet connectivity, today announced the launch of [Bizjet-Ai](#), a breakthrough inflight feature that delivers instant answers to passengers' questions, without needing to browse the web, scroll through cluttered news feeds, or pay for expensive broadband. With Bizjet-Ai, passengers can simply ask:

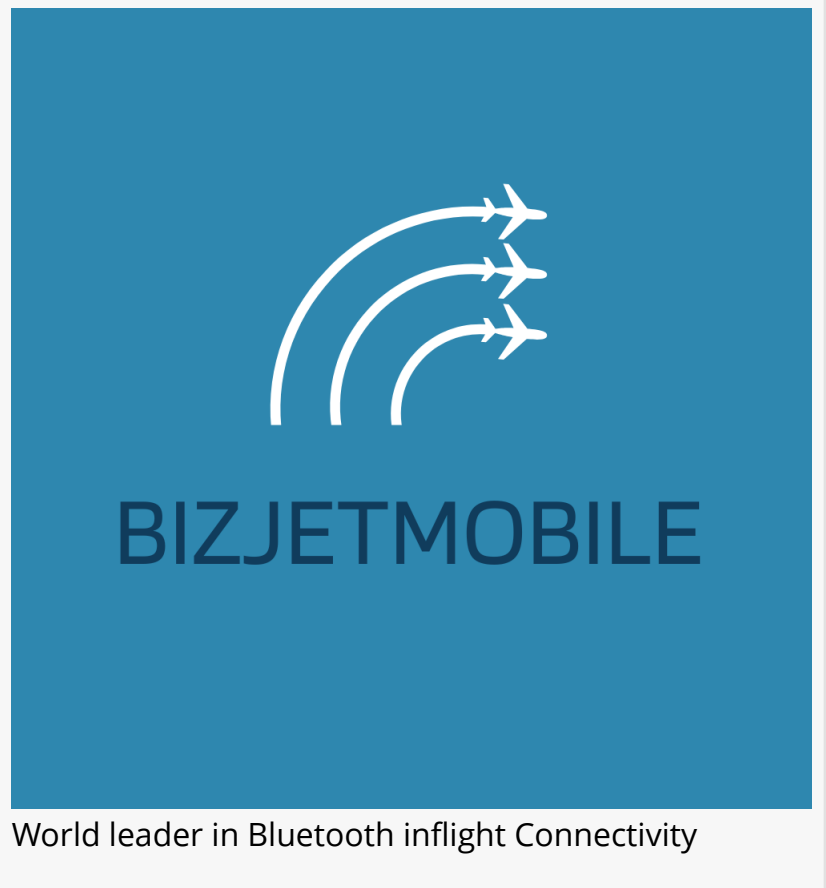

- "What's the latest on the stock market?"
- "Any government announcements?"
- "Weather in Geneva?"

Within seconds at no additional cost, Bizjet-Ai responds with concise, unbiased, real-time updates, all without ads, spam, or unnecessary data usage. It's a clean, focused information experience designed for the unique constraints of flying at 45,000 feet

"This is about cutting out the noise and the waste," said Adam Chapman CEO of BizjetMobile. "Bizjet-Ai gives passengers exactly what they need, answers without the distraction, delay, and cost of traditional inflight internet."

Bizjet-Ai is built into BizjetInternet, BizjetMobile's secure, Bluetooth-based connectivity platform that delivers unlimited messaging (SMS, WhatsApp, and Email) and on-demand live internet access via the Iridium Certus satellite network.

At just \$39,990 installed* and \$599/month, BizjetInternet ensures owners and passengers can

We believe inflight connectivity should be lean, intelligent, and purposeful. With Bizjet-Ai, we're redefining what it means to be connected in-flight."

stay connected to what matters, while avoiding the multi-thousand-dollar bills that come with streaming-focused broadband.

Key benefits of Bizjet-Ai:

- Instant intelligence - Fast, accurate answers without searching.
- Zero distractions - No ads, spam, or irrelevant links.
- Minimal data use - Saves bandwidth for essentials.
- Always available - Works globally.

"We believe [inflight connectivity](#) should be lean, intelligent, and purposeful," added Adam Chapman. "With Bizjet-Ai, we're redefining what it means to be connected inflight."
