

SplashBI and More4Apps Form Strategic Partnership to Enhance Oracle Reporting and Data Management

Oracle users get clearer insight and smoother data handling. SplashBI reporting with More4Apps automation to work smarter and faster.

DULUTH, GA, UNITED STATES,
September 23, 2025 /

EINPresswire.com/ -- [SplashBI](#), a global provider of [AI-powered](#) enterprise reporting and analytics solutions, has announced a strategic partnership with [More4Apps](#), a leading provider of Oracle data loading and automation tools.

SplashBI and More4Apps help Oracle users work smarter with stronger reporting and automation.

This partnership brings together two organizations dedicated to helping Oracle E-Business Suite (EBS) and Oracle Fusion Cloud customers work more efficiently with their data. SplashBI simplifies on-demand reporting and analysis across departments. At the same time, More4Apps

“

By combining SplashBI's on-demand enterprise reporting with More4Apps' seamless data automation, we're giving users full visibility and control - from data input to decision.”

Naveen Miglani, CEO & Co-Founder

streamlines high-volume data entry and maintenance, allowing enterprise users to spend less time on manual processes and more time making informed decisions. Together, SplashBI and More4Apps will deliver a unified approach to Oracle data visibility and control, combining timely insights with efficient data handling to drive productivity, accuracy, and business agility.

“This partnership addresses a definite need we hear from Oracle customers: reporting and data entry are still disconnected, manual, and time-consuming,” said Naveen Miglani, CEO and Co-Founder, SplashBI. “By combining

SplashBI's on-demand enterprise reporting with More4Apps' seamless data automation, we're giving users full visibility and control - from data input to decision. It's a natural alignment that

brings speed, accuracy, and confidence to everyday Oracle operations.”

“We’re thrilled to formalize our long-standing relationship with SplashBI. Over the years, we’ve collaborated at conferences and Oracle initiatives, and this partnership is the natural next step. Together, we’re delivering a truly comprehensive solution - combining SplashBI’s powerful reporting with More4apps’ seamless upload and download capabilities to help teams work smarter and faster.” - Brian Grossweiler, CEO of More4apps

The partnership will focus on key industries, including manufacturing, distribution, and finance, helping customers maximize the value of their Oracle investment through complementary, purpose-built solutions that deliver measurable impact.
