Rise in average age of vehicles and surge in demand for water-based degreasers drive the growth of the California industrial degreasing solvents market. However, increase in environmental and health concerns regarding solvent-based degreasers hinders the market growth. On the other hand, emergence of the electronics sector presents new opportunities in the coming years.

The report offers detailed segmentation of the California industrial degreasing solvents market based on product and end-use industry.

Based on product, the oxygenated degreasing solvent segment accounted for the highest market share in 2019, contributing to more than two-fifths of the total market share, and is estimated to maintain its leadership status during the forecast period. However, the green

degreasing solvent segment is expected to manifest the highest CAGR of 4.4% from 2020 to 2027.
