## Why This Matters

Stablecoins now settle over \$8 trillion annually, outpacing Visa in on-chain settlement volume. But while usage surges, the surrounding infrastructure remains fragmented and opaque.

This map offers a first-of-its-kind bird's-eye view of the industry — enabling better decisions, stronger collaborations, and faster innovation across the stablecoin value chain.

### A Strategic Partnership

This initiative reflects Amber Group's continued leadership in advancing the global stablecoin ecosystem by supporting high-impact infrastructure projects like AllScale.
