About Santa Fe Recovery Center

Santa Fe Recovery Center (SFRC) is a non-profit, CARF-accredited (Commission for the Accreditation of Rehabilitation Facilities) substance use disorder (SUD) treatment center operating in Santa Fe and Gallup. SFRC was established in 2005 to respond to the long-existing problem of substance use plaguing Northern New Mexico. SFRC provides detoxification, residential treatment, regular and intensive outpatient treatment, and medication-assisted treatment. In 2020, at the request of the State of New Mexico Department of Health and the New Mexico Human Services Department, SFRC was tapped to fill the void in evidence-based SUD treatment options in McKinley County in an effort to help eliminate gaping health disparities in this rural, underserved community. Shortly thereafter, Four Corners Detox Recovery Center (FCDRC) was established in Gallup. For more information, visit sfrecovery.org.
