

# Guangzhou Academy of Arts by Shi Chun Sheng Wins Gold in A' Graphics Industry Awards

*Shi Chun Sheng's Innovative Exhibition Visual Identity Design Recognized with Prestigious International Award*

COMO, CO, ITALY, September 25, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [graphic design](#), has announced [Shi Chun Sheng's](#) work, "Guangzhou Academy of Arts," as a Gold winner in the Graphics, Illustration and Visual Communication Design category. This prestigious recognition highlights the significance of the Guangzhou Academy of Arts design within the graphic industry, positioning it as an outstanding example of innovation and excellence.

The Guangzhou Academy of Arts design holds particular relevance for the graphic industry and its stakeholders. By embodying Guangmei's role as a symbol of future visual trends, this design aligns with current industry needs for forward-thinking, experimental approaches. The practical benefits of this innovative visual identity system extend to users, the industry, and the broader design community, showcasing the potential for cultural redesign to engage younger audiences and promote traditional culture in fresh, compelling ways.

Shi Chun Sheng's award-winning design stands out for its unique fusion of ceremonial flag elements with speculative design architectures. By harnessing the flag's inherent dialectic properties, the Guangzhou Academy of Arts design serves as both an ideological docking station for collective visioning and a speculative incubator for disciplinary subversion. This framework repositions GAFA as a generative node within the evolving global design landscape, inviting

exploration of the infinite possibilities of design.

The Gold recognition from the A' Graphics, Illustration and Visual Communication Design Award serves as a catalyst for the Guangzhou Academy of Fine Arts School of Visual Design to continue pushing boundaries and exploring new frontiers in design. This achievement not only validates the innovative approach taken with the Guangzhou Academy of Arts design but also sets the stage for future projects that challenge conventions and contribute to the advancement of the field.
