In 2017, the hand & arm protection equipment segment accounted for approximately one-fourth share in the UAE personal protective equipment market and is projected to grow at the highest CAGR of 8.3%.

Rise in injuries and accidents due to the falling objects, flying sparks, sharp edges, chemicals, and noise have led to the increased awareness amongst the worker about the safety and precautions, thereby driving the sales of PPE in the UAE market. Moreover, growth in application of PPE in the construction industry owing to the rapid expansion of new infrastructure and upgradation of existing infrastructure in UAE further boosts the growth of the personal protective equipment market.

The personal protective equipment, or PPE, are ergonomically designed to protect the workers from hazards found on or off the job. The hazards addressed by protective equipment include

physical, electrical, heat, chemicals, biohazards, airborne particulate matter, and myriad of other possibly hazardous situations. Owing to the growth in injuries and number of workplace accidents, the UAE government introduced many advanced legislations to protect workers, such as the Domestic Labor Law. Also, OSHA and MoHRE continues to work for improving the protection offered to workers.

Hands & arm protection equipment such as protective gloves, wrist cuffs & armlets, elbow protectors, and others offer protection against cut, slash, abrasion, flames, and chemical spill, and thus form the basic safety requirement in almost every industry. Falling objects, flying sparks, sharp edges, chemicals, noise, and countless other possibly hazardous situations further leads to the application of other PPE such as protective clothing, leg protection equipment, respiratory protection equipment, head protection equipment, eye & face protection equipment, and others such as hearing protection equipment, fall protection equipment, and gas detector. However, increased automation in end-use industries is projected to hamper the market growth.

The major players profiled in this report include Honeywell International Inc., 3M Company, E. I. Dupont de Nemours and Company, Ansell Limited, Kimberly-Clark Corporation, JSP Limited, Venus Safety & Health Pvt., Ltd., Dream Castle Technical Supply LLC, Schefferville Trading LLC, and Vaultex. The report also includes various other manufacturers/distributors of PPE such as MSA Safety, Al Asayel Health & Safety, Uruguay Oil Field & Safety Equipment, Spark international Energy L.L.C., Specialised Technical Services (STS), and Atlas Safety.
