

# GiaSpace Celebrates 20 Years of Providing IT Services

*Florida-based Managed IT Provider marks two decades of growth, grit, and game-changing service for small and midsize businesses*

GAINESVILLE, FL, UNITED STATES, October 15, 2025 /EINPresswire.com/ --

[GiaSpace](#), trusted international [Managed Service Provider](#) (MSP), is

proud to celebrate 20 years of delivering fast, friendly, first-time fix [IT support](#) to businesses across the state. Founded in 2005 by Rob Giannini, GiaSpace has grown from a one-man break-fix operation into a strategic IT partner known for proactive service, transparent pricing, and industry-tailored solutions.

“

GiaSpace was built to be different. We don't just fix problems. We help businesses grow, stay secure, and plan for what's next. That's why our clients stick with us and why we're just getting started.”

*Robert Giannini*

What began with a soldering iron and a passion for electronics has evolved into a full-service MSP supporting industries from manufacturing and construction to accounting, staffing, and healthcare. GiaSpace's all-inclusive, flat-rate subscription model eliminates surprise invoices and tiered service plans giving businesses peace of mind and IT that scales with their goals.

“We didn't grow GiaSpace by selling more service tiers. We did it by eliminating them,” said Rob Giannini, Founder and CEO of GiaSpace. “From the beginning, I wanted to build an

IT company that felt like a true partner, one that solved problems before they happened, treated every client like family, and never outsourced support. Twenty years later, that's still our promise.”

GiaSpace's success is rooted in its commitment to personalized service and strategic foresight. Every technician is hand-picked and trained to deliver first-time fixes, and every client receives proactive planning, built-in cybersecurity, and quarterly business reviews to align IT with long-term growth.

The company's brand, "Fast, Friendly, First-Time Fix", is more than a tagline. It's a culture. GiaSpace's team is evaluated on client feedback, incentivized for accuracy and speed, and empowered to act like owners. That owner-led mindset has helped GiaSpace navigate recessions, pandemics, and tech revolutions, always adapting to meet the evolving needs of businesses across the U.S.

"GiaSpace was built to be different," Giannini added. "We don't just fix problems. We help businesses grow, stay secure, and plan for what's next. That's why our clients stick with us and why we're just getting started."

As GiaSpace enters its third decade, the company remains focused on innovation, client success, and expanding its impact across Florida and beyond. With a growing team, a loyal client base, and a reputation for excellence, GiaSpace is poised to continue leading the way in strategic, relationship-driven IT support.

#### About GiaSpace

GiaSpace is a Florida-based, international Managed Service Provider that believes in transparent, all-inclusive IT support. For over two decades, we have been helping small and midsize businesses thrive with our subscription-based model that eliminates surprise invoices and onboarding fees. Our commitment to a "Fast, Friendly, First-Time Fix" is at the core of everything we do, ensuring that your IT issues are resolved efficiently and effectively by our local, expert team. We provide proactive, industry-specific solutions that keep your business secure, scalable, and ahead of the curve.
