

# Consumer Protection Law Group Launches Specialized Support for Drivers Affected by September's 3 Million Vehicle Recalls

*CPLG provides critical guidance as new legislation creates tighter deadlines while massive fall recalls affecting 3+ million vehicles.*

AZ, UNITED STATES, September 26, 2025 /EINPresswire.com/ -- [Consumer Protection Law Group](#) (CPLG), the nationwide consumer advocacy firm behind [247LemonLaw.com](#), today announced the launch of specialized legal services designed to help vehicle owners navigate California's restrictive 2025 Lemon Law changes while addressing the fallout from a record-breaking year of automotive recalls, including three major safety campaigns announced this fall affecting over 3 million vehicles.

With over 29 million vehicles recalled in 2024 alone and new California legislation creating additional barriers for consumers, CPLG is responding with enhanced legal strategies and expedited case processing to protect drivers' rights during this critical period.

## Fall 2025 Recall Crisis Demands Immediate Action

September 2025 has witnessed an unprecedented wave of safety recalls that CPLG is actively addressing:

- Ford's Largest 2025 Recall: 1.4+ million Ford and Lincoln vehicles recalled for rearview camera failures that display blank, distorted, or inverted images, creating significant crash risks
- Toyota's Dashboard Crisis: 591,000 Toyota and Lexus vehicles (2023-2025 models) recalled for instrument panel displays that go completely blank at startup, preventing drivers from seeing speed and critical safety warnings
- Stellantis Multi-Brand Emergency: Over 91,000 Jeep Grand Cherokee plug-in hybrids recalled for software errors causing complete loss of drive power, with additional recalls affecting Dodge and Chrysler vehicles

"We're witnessing a perfect storm of consumer vulnerability," said a spokesperson for Consumer Protection Law Group. "Automakers are dealing with unprecedented quality control failures involving critical safety systems, while new California legislation makes it harder for drivers to seek remedies. These aren't minor inconveniences—these are potentially life-threatening defects that demand immediate legal intervention."

## Addressing the Perfect Storm: New Laws Meet Record Recalls

California's Assembly Bill 1755, effective July 1, 2025, introduced mandatory written notice requirements and tighter filing deadlines that have left many consumers scrambling to understand their rights. The timing couldn't be worse, as consumers are simultaneously facing the automotive industry's worst safety crisis in recent history.

### CPLG's Strategic Fall 2025 Response Initiative

The firm's enhanced services specifically address current recall-related challenges:

- Emergency Recall-Lemon Integration Analysis: Rapid assessment connecting current safety recalls to potential lemon law claims for vehicles with repeated repair failures
- 48-Hour California Compliance Review: Expedited evaluation to meet new AB 1755 notice requirements before statutory deadlines
- Critical Safety Defect Priority Processing: Fast-track handling for cases involving the Ford camera, Toyota dashboard, and Stellantis power loss recalls
- Multi-State Recall Strategy: Coordinated legal approach for consumers affected by recalls who purchased vehicles in different states

### The Alarming Numbers Behind the Crisis

Recent data reveals the unprecedented scope of the challenges facing consumers:

- Over 29 million vehicles recalled in 2024, the highest number in automotive history
  - 3+ million additional vehicles recalled in September 2025 alone
  - California lemon law cases increased from 15,000 in 2022 to over 22,000 in 2024
  - Ford has now recalled over 2.5 million vehicles for camera problems since January 2025
- CPLG has successfully resolved over 3,900 cases nationwide, with growing focus on recall-related repeat failures.

### When Recalls Become Lemon Law Cases

Many consumers don't realize that recalled vehicles experiencing continued problems after repair attempts may qualify for full lemon law protections, including vehicle buybacks or replacements. CPLG specializes in cases where:

- Recalled safety systems continue to malfunction after dealer "repairs"
- Multiple recall attempts fail to resolve the underlying defect
- Vehicles remain unsafe to drive despite recall remedies
- Manufacturers delay or inadequately address critical safety recalls

The firm is actively representing clients affected by fall 2025's major safety recalls:

- Ford rearview camera failures in F-150, Escape, Explorer, Bronco, and Lincoln models where camera problems persist after recall repairs
- Toyota blank dashboard displays affecting RAV4, Camry, Highlander, Lexus RX, and other models where programming updates fail to resolve the issue

- Jeep Grand Cherokee hybrid power loss where software updates don't eliminate the dangerous loss of drive power
- Electric vehicle charging and battery defects in Tesla, Ford Mustang Mach-E, and Chevrolet Bolt models

#### Nationwide Impact, Local Expertise

While California's changes are creating headlines, lemon laws in other states remain robust. The firm actively represents clients across all 50 states under federal warranty protections and individual state lemon laws.

#### Taking Action During the Crisis

Vehicle owners concerned about current recalls, defects, or California's new requirements can access CPLG's emergency services:

- [Free Case Review](#): Available at 247LemonLaw.com with same-day response for urgent safety cases
- VIN-Based Recall Cross-Check: Comprehensive analysis linking vehicle problems to existing recalls
- California Emergency Compliance Service: Tailored guidance for meeting AB 1755 requirements
- Zero-Cost Representation: All legal fees pursued directly from manufacturers, never from clients

#### About Consumer Protection Law Group

Consumer Protection Law Group is a nationwide law firm specializing in lemon law, automotive fraud, and consumer protection. With attorneys licensed to practice in multiple states and federal courts, CPLG has recovered millions of dollars for consumers facing defective vehicles. The firm's proactive approach to emerging safety crises and evolving legal challenges ensures clients receive maximum protection under consumer protection laws.
