

CleanCloud Launches Google Maps Booking Integration, Now Live in 88 Countries

CleanCloud launches Google Maps booking in 88 countries, letting customers book laundry pickup directly via Google search or Maps.

LONDON, UNITED KINGDOM, October 6, 2025 /EINPresswire.com/ --

[CleanCloud](#) is excited to announce the rollout of its new Google Maps Booking Integration to laundromats and dry cleaners around the world. This integration brings a seamless “Book Online” experience directly to

customers when they search on Google or Google Maps for services like “laundry near me” or “dry cleaning near me.”, or if they find your business on Google Maps.

CleanCloud

This game-changing feature enables customers to schedule pickup and delivery orders in just a tap, with no website navigation or app downloads, just instant access to CleanCloud’s optimized booking system that has been optimized for more orders and the best customer experience.

This Google Maps integration with CleanCloud makes booking laundry easier for both laundromat owners and their customers. It’s a win for customers and a growth opportunity for businesses worldwide.”

John Buni, CEO of CleanCloud

Highlights of the Integration:

- CleanCloud listings on Google now feature a “Book Online” button, driving bookings directly through Google without disrupting the user’s search flow.
- The integration is currently available to CleanCloud customers in 88 countries.

Why It Matters:

This integration positions CleanCloud users at the forefront of digital convenience, making it simpler than ever for new and existing customers to place orders. Fewer steps mean less friction and more opportunities to grow revenue.

CleanCloud encourages businesses to promote the feature in-store, such as with a poster near the entrance or counter, to drive visibility and adoption.

About CleanCloud

CleanCloud is the leading management and booking platform for laundromats, dry cleaners, alterations, and shoe cleaning services. Its all-in-one system supports a wide range of functionality including POS, pickup and delivery, website builder, payroll, marketing, and a branded mobile app, helping businesses automate operations and scale effortlessly.
