The Asia-Pacific region, including India, Bangladesh, and Nepal, faces a widening IT skills gap, particularly in cloud, virtualization, and infrastructure transformation. By joining Broadcom’s VCF education network, Koenig brings top-tier training on VMware’s full cloud technology stack, enabling learners to become deploy-ready from day one.

Notably, Koenig is now authorized to deliver VMware VCF training courses, equipping professionals with the

knowledge to deploy and manage the VMware Cloud Foundation platform confidently.

VMware’s VCF Education Delivery Partners uphold rigorous standards for technical expertise and instructional excellence. Through this partnership, Koenig ensures that every training segment—from vSphere and NSX, to vSAN and VMware Aria—delivers consistent, high-quality instruction aligned with the latest global best practices.

Learners can choose from flexible formats—online, in-person, or blended—without compromising on content depth or instructor proficiency.

VMware Cloud Foundation

“This partnership with VMware by Broadcom is a milestone for Koenig, and a major step forward for IT professionals across South Asia,” said Rohit Tiwary, Koenig Solutions CEO. “By becoming a VCF Education Delivery Partner, we are not only expanding our footprint but also bringing world-class cloud and virtualization training closer to home. Our goal is to empower enterprises and individuals with the skills they need to accelerate digital transformation, drive innovation, and stay ahead in a rapidly evolving technology landscape.”

VMware Cloud Foundation is a leading cloud management platform for private clouds.

Localized Access to Premium Training: Professionals across India, Bangladesh, and Nepal can now engage in authorized, VMware-developed VCF learning pathways—without having to travel internationally.

Global Recognition & Value: VMware certifications are highly valued in the APJ job market, with training often leading to enhanced employability and career growth.

Building Expertise for Digital Transformation: Organizations can build in-house expertise in private cloud modeling, virtualization, and infrastructure modernization—key enablers for digital transformation.

VMware Cloud Foundation is a leading cloud management platform for private clouds.

Koenig Solutions, founded in 1993, stands as a global leader in IT training. Known for its vast course portfolio, customized educational offerings, [global presence](#), and partnerships with top global tech leaders, Koenig now extends its leadership further as a VCF Education Delivery Partner, delivering elite VMware Cloud Foundation training.

VMware by Broadcom continues to expand its ecosystem to empower modern private cloud adoption. Its certified network of VCF Education Delivery Partners ensures access to the latest VMware Cloud Foundation stack and certified instruction across global markets.
