Simon also captured the iconic portraits of Liam and Noel together that has been widely used since the announcement of the tour.

“Being chosen to photograph the top-secret Oasis reunion portraits was a real honour. As the

only photographer to document it from the very start through to the end of the tour, it's been a truly unique and privileged experience and insight. The extraordinary mania and positivity has been intoxicating. Much more than a band reunion, it's been a real cultural movement."
