

Zeniko Launches ZF04&ZF08 Mini Flashes+T1 Trigger—15% Off for Ricoh GR3/GR3x, Fujifilm X100VI, Sony ZV-1, Leica Camera

Ultra-compact, USB-C rechargeable flashes start at \$25.42—pair with the Zeniko T1 Riser & Flash Trigger to eliminate shadows.

CA, UNITED STATES, October 3, 2025 /EINPresswire.com/ -- Introduce the [Zeniko ZF04 Mini Camera Flash](#) and [Zeniko ZF08 Mini Camera Flash](#)

Zeniko announces the launch of its ZF04 and ZF08 mini flashes, compact USB-C rechargeable speedlites designed for street, travel, and

everyday photographers. Weighing only ~20g (ZF04) and ~36g (ZF08), both are lighter than earbuds, yet powerful enough to transform low-light blur into sharp, memorable images. The ZF04 offers instant auto output for quick snapshots, while the ZF08 provides stepped control from 1/16 to full power for creative flexibility. Both add catchlights, balance backlight, and freeze indoor motion—without the bulk of traditional flashes.

“

Zeniko is thrilled to join Amazon Prime Day, giving photographers and creators 15% off our most popular flashes and the T1 trigger to inspire more creative lighting.”

Aileen Samantha, Marketing Promoter, Zeniko

ZF08 weighs ~36g—lighter than a pair of earbuds. Slip it in your pocket and have a flash ready for night streets, cafés, or spontaneous portraits.

- Recharge & shoot all day – Built-in lithium battery with USB-C charging. Forget AA

Zeniko ZF04 & ZF08 Mini Camera Flashes mounted on a compact camera for street and travel photography

These flashes are compatible with all cameras, including Ricoh GR3/GR3x, Fujifilm cameras (Fujifilm X100VI/XF10), Sony cameras (Sony ZV-1/RX1), Canon cameras (Canon G7X), and Leica compacts. They slip easily into a pocket for grab-and-go shooting.

ZF04 & ZF08 Mini Flashes Key Features:

- Pocket-size, always with you—ZF04 weighs ~20g, and

batteries—top up anywhere with a phone charger or power bank, enough juice for a full day of travel and street and everyday shooting.

- Better photos in any light—Add natural catchlights to eyes, balance harsh backlight in street shots, or freeze motion indoors. Turns low-light blur into sharp, memorable images.
- Creative control or instant ease—ZF08 gives stepped output from 1/16 to full for flexible lighting control; ZF04 keeps it simple with instant auto output—ideal for quick snapshots.
- Made for your favorite compacts—the universal hot shoe works seamlessly with Ricoh GR3/GR3x, Fujifilm (like Fujifilm X100VI/XF10), Sony (like Sony ZV-1/RX1), Canon (like Canon G7X), and Leica compacts.

Introduce the [Zeniko T1 Flash Trigger](#)

Complementing them is the new Zeniko T1 Riser & Trigger. This pocket transmitter/receiver combo delivers stable 2.4GHz wireless control up to 50m, with one-touch TX/RX switching and 40h TX battery life. Its 15° elevated hot shoe eliminates lens and nose shadows, ensuring cleaner portraits and product shots. Together, the ZF mini flashes and T1 empower photographers to capture professional results anywhere with minimal gear.

Zeniko T1 Riser & Trigger Key Features:

- All-in-one wireless control—trigger multiple flashes via 2.4 GHz adaptive hopping (50m stable range).
- Universal hot shoe—fits 99% of DSLR/mirrorless (Sony A7 IV, Canon R8, Nikon Z30, Fuji X-T5, Leica Q3).
- Built-in endurance—40h continuous TX / 8h RX, USB-C charging, power-bank friendly.
- Fast workflow—one-touch TX/RX switch, no menu diving.
- Shadow control—a 15° elevated hot shoe optimizes ZF08/04 (and Godox IM20/IM30), eliminating lens/nose shadows in portraits & product shots.

Designed for Modern Creators:

Whether capturing portraits, products, or location video, the ZF series and T1 Riser & Trigger offer dependable, creative lighting without the bulk of traditional flashes. Their size and convenience make them a natural choice for vloggers, travelers, and anyone seeking professional results in a grab-and-go package.
