

# New York 60 Multispace by Primagran Wins Gold in A' Kitchen Furniture Design Awards

*Innovative Kitchen Sink Design  
Recognized for Transforming Unused  
Space into Functional Workspace*

COMO, CO, ITALY, September 29, 2025 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized accolade in the field of [kitchen furniture](#) design, has announced Primagran's New York 60 Multispace as the recipient of the Gold A' Kitchen Furniture, Equipment and Fixtures Design Award. This prestigious recognition highlights the exceptional design and innovation of the New York 60 Multispace, solidifying its position as a standout product within the competitive kitchen furniture industry.

New York 60 Multispace

The New York 60 Multispace's innovative design directly addresses the challenges faced by modern kitchens, where space optimization and functionality are paramount. By transforming the often-underutilized faucet bench into an organized, multi-purpose workspace, this kitchen sink aligns perfectly with current trends and user needs. The practical benefits of the Multispace system, such as improved ergonomics, efficient drainage, and enhanced storage, make it a valuable addition to any kitchen, benefiting both end-users and industry professionals alike.

What sets the New York 60 Multispace apart is its ingenious Multispace system, featuring dual zones for utensils, herbs, and dishwashing essentials, along with a dedicated cutting board drying area. The integrated vertical drainage ensures water never accumulates, while the slim, sloping edges and beveled rim provide a sleek, modern aesthetic that simplifies cleaning. Every aspect of the design has been carefully considered to maximize space utilization and enhance the overall user experience.

This recognition from the A' Kitchen Furniture, Equipment and Fixtures Design Award serves as a testament to Primagran's commitment to innovation and excellence. The award not only validates the hard work and dedication of the Primagran team but also inspires them to continue pushing boundaries and exploring new possibilities in kitchen furniture design. As the New York 60 Multispace gains international exposure, it has the potential to influence industry standards and inspire future designs that prioritize functionality and space optimization.

New York 60 Multispace was designed by Marcin Sznajder and the New Product Development Team at [Primagran Primagran](#).
