## Advanced Technologies at Dr. Jay A. Zimmerman, DMD

The practice incorporates a range of tools designed to improve diagnosis, treatment planning, and overall patient experience:

**3D Digital X-Rays** – Provide highly detailed three-dimensional views of teeth, jaw, and surrounding structures, aiding in the identification of impacted teeth, cysts, and bone conditions.

**Soft Tissue Laser (DenMat Pro3 Microlaser)** – Used for gum contouring, lesion treatment, and cold sore therapy with benefits such as reduced swelling, faster healing, and minimal need for sutures.

**Intraoral Camera** – Offers magnified, high-resolution images of the mouth, supporting accurate diagnosis and patient education.

Infrared Cavity Detection – Identifies cavities at an early stage without the use of radiation, improving precision and patient safety.

iTero Digital Scanner – Creates precise 3D digital models of the teeth and bite, enhancing restorative and orthodontic treatment planning.

Dexis Digital X-Rays – Delivers sharp, instant images for efficient detection of cavities, gum disease, and other dental conditions.

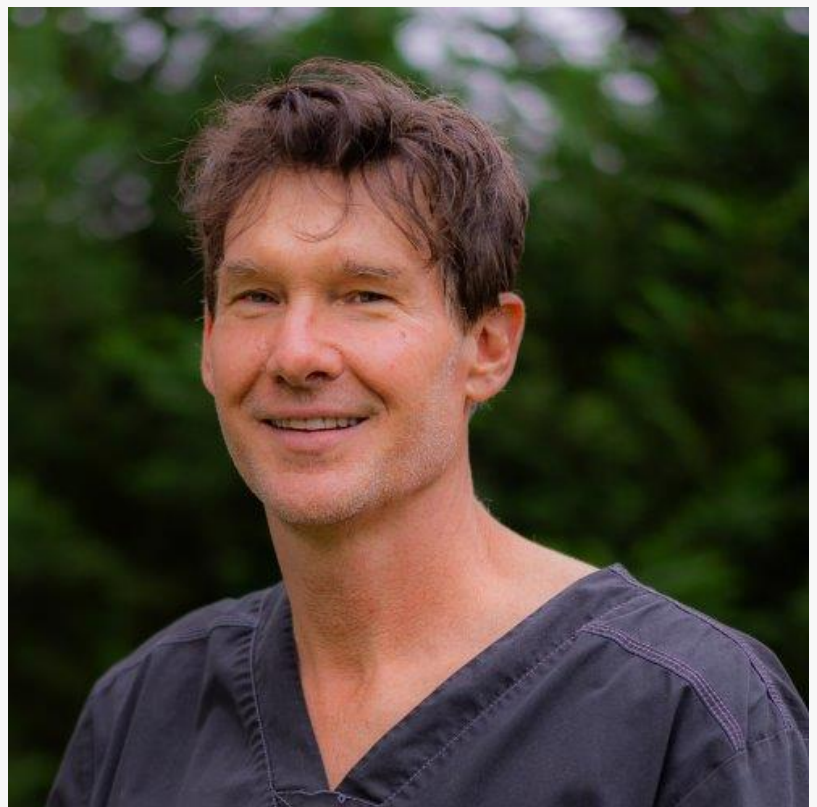

#### A Patient-Focused Perspective

[Dr. Zimmerman](#) explains: “Technology is an important part of modern dentistry, but it is only effective when paired with personal care and trust. By combining advanced tools such as digital scanners and lasers with our commitment to patient comfort, we can provide safer, more accurate, and more comfortable treatment. My goal is to ensure that every patient feels informed and supported throughout their dental experience.”

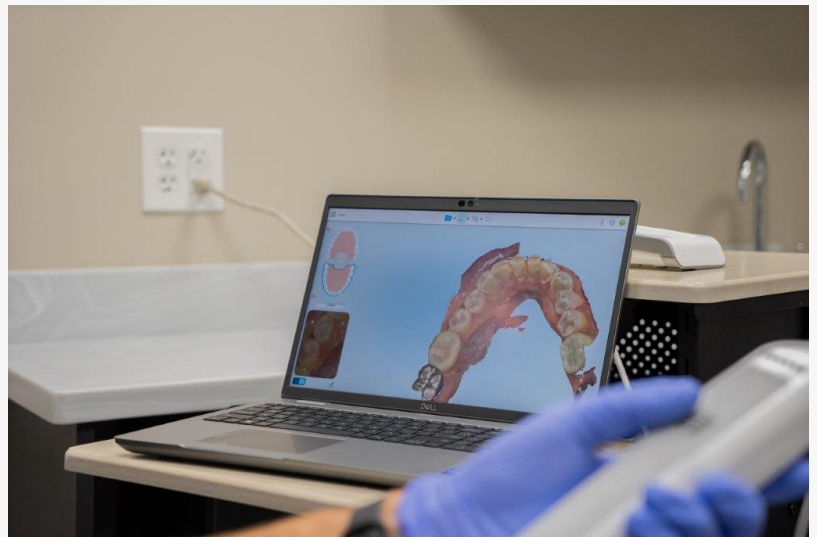

#### Patient-Centered Care and Community Commitment

In addition to technology, Dr. Jay A. Zimmerman, DMD emphasizes accessibility and comfort:

- 1) 20 Years of Excellence – Providing dental care in Mountainside for more than two decades.
- 2) Flexible Scheduling – Early morning, evening, and every other Saturday appointments.
- 3) Same-Day Care – Emergency appointments and same-day hygiene visits available when needed.
