EINPresswire.com/ -- Fidesic, a leading provider of accounts payable software, announces the release of the second issue of Fido Magazine, available exclusively at Dynamics Community Summit NA 2025 in Orlando. Following the success of the inaugural issue, this print magazine will first be available in person and will feature thought leadership and engaging content for Microsoft Dynamics ERP users and vendors.

Building on the positive reception of the first issue, the second edition will be a themed issue titled "The Migration Issue," focusing specifically on Microsoft Dynamics GP to D365 Business Central migration. As organizations approach the support cutoff for GP, this topic becomes increasingly urgent for the Dynamics Community. The issue will showcase cover interviews with migration specialists and feature articles from prominent Microsoft Partners who provide practical tips and strategic guidance for users actively considering or planning this critical transition, delivering content that conference attendees will find both actionable and entertaining.

"The response to our inaugural print issue was incredible and we knew we had to keep this going," said Kevin Pritchard, Fidesic VP of Product and Growth and publisher of Fido Magazine.
