

International Food Waste Day - Upcycled Food Global Research Symposium

September 29 is the 6th International Day of Awareness of Food Loss and Waste and Upcycled Food Foundation's next Global Scientific Research Virtual Symposium.

DENVER, CO, UNITED STATES, September 29, 2025 /EINPresswire.com/ -- The Upcycled Food Association (UFA) drives progress to stop global food loss and waste as an organization representing worldwide food leaders and businesses working across all parts of the supply chain. September 29 is a key moment for public awareness as the Food and Agriculture Organization of the United Nations (FAO) marks the sixth International Day of Awareness of Food Loss and Waste (IDAFLW).

“

Upcycled food innovation is an important lever in our global quest to stop food waste, allowing companies to empower consumers to take action on climate with their everyday purchases”

Amanda Oenbring, UFA CEO

In June 2025, as part of Upcycled Food Month the Upcycled Food Foundation (UFF), UFA's 501(c)(3) nonprofit, launched the world's first [Global Scientific Research Community](#) with

a first Virtual Symposium where 22 students and academic researchers from 10 countries presented 11 hours of the latest quantitative and qualitative upcycled food innovation findings.

September 29-30, 2025 kicks off UFF's next Global Symposium II with the latest worldwide scientific research being shared by 20 speakers, scholars and students from Canada, China, Ecuador, Denmark, Ireland, Norway, Poland, Spain and from the US with a special spotlight session in collaboration with Cornell University's College of Agriculture and Life Sciences.

“Upcycled food innovation is an important lever in our global quest to stop food waste, allowing companies to empower consumers to take action on climate with their everyday purchases,” said Amanda Oenbring, CEO of the Upcycled Food Association. “Gathering worldwide scholars to share key research on scientific advancements and consumer insights furthers this progress.”

International companies of all sizes are growing the upcycled movement since UFA began in 2019. UFA members continue to chart a collaborative course for global food systems change. To learn more about Upcycled Food Association and Upcycled Food Foundation, register for the Symposium and explore resources, visit upcycledfood.org.

The poster features a grey background with a circular graphic of three white bowls containing different types of upcycled food grains, connected by a blue line. A green arrow points from the top left towards the bowls. The text "September 29-30" is in large white font. Below it, "Virtual Global Upcycled Food Research Symposium" is written in a white script font. The UFF logo, which includes a green arrow and the letters "UFF" with "UPCYCLED FOOD FOUNDATION" underneath, is in the bottom right corner.
