

Modigent Celebrates Grand Opening of San Antonio Regional Hub

New center unites Central Air & Heating Service and Climate Solutions, expanding client support and opportunities for team members across Texas

SAN ANTONIO, TX, UNITED STATES,
September 30, 2025 /

EINPresswire.com/ -- On September 10, 2025, [Modigent](#) celebrated the grand opening of its new regional hub in northeast San Antonio, marking a major step forward in the company's Texas growth strategy. The event drew a strong turnout from clients, vendors, and community members, underscoring the importance of the new center as both a workplace and a resource for the region.

The San Antonio hub brings together two Modigent operating companies—[Central Air & Heating](#)

[Service](#) (CAHS) and [Climate Solutions](#). This base of operations creates a collaborative environment designed to deliver faster service, improve integration, and fuel continued growth across central and south Texas.

"This opening reflects our commitment to central and south Texas and to the clients who count on us," said Frank Doyle, Regional President at Modigent. "Clients now benefit from having a regional center that puts us closer to their needs, while our people gain the support and connection of being part of a larger team."

The San Antonio location fosters collaboration between CAHS and Climate Solutions, streamlining project and service delivery while reinforcing Modigent's culture of integration. It also serves as a blueprint for future expansion, showing how Modigent combines the strengths of multiple operating companies with national resources and leadership.

Dan Bueschel, CEO of Modigent, added, "Texas continues to be one of the most dynamic regions in the country, and our culture of collaboration positions us to thrive here. By co-locating

operations, we're building stronger client relationships, creating opportunities for our people, and setting a new standard for how we grow together."

The regional center is continuing to add local hires across service, project management, sales, and administration, with leadership roles supported by both CAHS and Climate Solutions.

###

About Central Air & Heating Service
Central Air & Heating Service (CAHS)
delivers HVAC, plumbing, and controls

solutions across Texas with expertise in design-build, design-assist, and retrofit projects. From system evaluations to central plant construction, CAHS partners with clients to deliver efficient, cost-effective, and high-quality results. Backed by in-house engineering and a reputation for

“
