

Aircraft Windshield Wiper and Washer System Market Growth With Recent Trends, Demand and Forecast by 2030

By type, the line fit segment dominated the global market in 2020 in terms of revenue. By application, the commercial aircraft segment to lead the market growth

WILMINGTON, DE, UNITED STATES,
September 30, 2025 /

EINPresswire.com/ -- [Aircraft windshield wiper and washer system market size](#) was valued at \$86,525.60 thousand in 2020, and is estimated to reach \$129,937.70 thousand by 2030, growing at a CAGR of 4.2% from 2021 to 2030.

Factors such as rise in air traffic coupled with demand for new aircrafts, Increase in Maintenance, Repair, and Operations (MRO) activities, increasing military spending is expected to reinforce the new aircrafts demand, which further anticipated to propel the need for windshield wiper and washer system in near future. In addition, increase in need for safety & security boosts the market growth. However, growing inclination of alternatives such as hydrophobic coating, ice detection systems, and others could hinder the windshield wiper and washer system market growth. Moreover, growing inclination toward efficient windshield wiper and washer systems with minimal drag are anticipated to provide remunerative opportunities for market expansion.

Covid-19 Impact Analysis:

COVID-19 has presented the world with an unprecedented economic, humanitarian, and healthcare challenge. Lockdown measures have helped to contain the spread of coronavirus, but exacted an immense economic toll. On the business side, the aerospace sector is one of the considerably hit sectors. Following the pattern witnessed in countries where COVID-19 spread earlier, lockdown measures and other restrictions have impacted the air travel. Furthermore,

coronavirus has introduced unexpected challenges within the aircraft industry. However, With the relaxation of lockdown measures and the consequent opening of markets across the world, the demand for aircraft windshield wipers and washer systems is anticipated to grow considerably in the near future.

The aircraft windshield wiper and washer system market is segmented on the basis of type, application type and region. By type segment the market is divided into line fit and retrofit. By application, the market is segmented into commercial aircraft, military aircraft and others. Region-wise, it is studied across North America, Europe, Asia-Pacific, and LAMEA.
