From the anime "Demon Slayer: Kimetsu no Yaiba," Kamado Tanjiro and Kamado Nezuko join the Concept Masterline series.

Tanjiro, who became a demon slayer to save his sister, and Nezuko, who was transformed into a demon, are presented together at 1/6 scale.

Nezuko is shown leaping in midair while Tanjiro stands firmly on the ground, with the Seisei Ruten (Water Dragon of Constant Flux) spiraling around them to create height and depth.

The sculpt and paintwork combine the impression of the anime with three-dimensional form. The portraits of both characters are crafted to reflect their presence while retaining youthful features. Their haori and kimono are detailed with iconic patterns and painted to maintain the anime aesthetic. The water effects of Tanjiro's breathing technique, along with the textures of wood and steel on the base, are reproduced with careful workmanship.

Swappable head parts allow for different expressions: Tanjiro biting down in determination, and Nezuko in anger. Nezuko also includes an alternate arm showing her Blood Demon Art: Bakketsu (Exploding Blood). A background stand with motifs from the series, such as a shoji screen and the Kasugai Crow, is also included.

The Ultimate Bonus Version features an exclusive head part for Tanjiro with a fierce expression.
