“Halloween is all about creativity and a little bit of spooky fun,” said Racheal Chareunsouk, President, of Strand Termite & Pest Control. “With the cooler months ahead, our SMART system works behind the scenes to keep rodents and other pests out of your home, so the only critters you see are the ones you create for the contest!”

Strand’s SMART technology leverages digital sensors and Internet of Things monitoring to detect rodent activity early, allowing for efficient and environmentally responsible pest control across Myrtle Beach and surrounding areas.
