

Beyond Logix Appoints Michael Lapira as CEO to Drive Next Phase of Growth

ALLEN, TX, UNITED STATES, October 1, 2025 /EINPresswire.com/ -- [Beyond Logix](#) is pleased to announce the appointment of [Michael Lapira](#) as Chief Executive Officer, a strategic leadership move that signals the company's commitment to accelerating growth and strengthening its position as a leading provider of logistics and supply chain solutions. Lapira will oversee Beyond Logix and its business units, Aulintri, Logiq FM, and Beyond Clearance, guiding the organization into its next chapter of innovation and market expansion.

Michael Lapira brings a proven record of operational excellence, team leadership, and strategic insight to the role. His vision will be instrumental in aligning the company's domestic freight, ocean freight, and product innovation unit Aulintri under a unified framework. The integration will allow Beyond Logix to deliver a true [end-to-end logistics](#) experience, designed to maximize efficiency and elevate customer value across diverse industries.

By consolidating its business units, Beyond Logix aims to optimize operations, harness advanced technologies, and strengthen cross-functional collaboration. The move highlights the company's long-term strategy of enhancing customer service while building a resilient and innovative logistics ecosystem.

"We are thrilled to welcome Michael as CEO, who has been working as our Chief Operating Officer (COO)," says a spokesperson for Beyond Logix. "His ability to translate strategy into execution, combined with his leadership style, makes him the right choice to guide Beyond Logix into its next phase. We are confident he will inspire our teams, strengthen our culture, and position the company as a global leader in logistics solutions."

Lapira's leadership is expected to play a pivotal role in uniting the organization's freight operations with its product development initiatives, ensuring that Beyond Logix continues to evolve as a partner of choice for businesses seeking flexible, dependable, and technology-driven supply chain solutions.
