

# Source 10 by HDL Automation Co., Ltd. Wins Gold in A' Smart Home Technology Awards

*HDL Automation's Source 10 Control Terminal Recognized for Excellence in Smart Living and Home Automation Design*

COMO, CO, ITALY, October 2, 2025 /EINPresswire.com/ -- HDL Automation Co., Ltd.'s "Source 10" Control Terminal has been honored with the prestigious Gold A' [Design Award](#) in the [Smart Living](#) and Home Automation Design category. The A' Design Award is a highly respected and well-recognized accolade in the field of smart living design, celebrating exceptional products and projects that advance the industry and benefit society.

The Gold A' Design Award for Source 10 underscores its relevance to the evolving needs and trends within the smart living sector. By offering a centralized, user-friendly platform for managing home devices, Source 10 aligns with the growing demand for streamlined, intuitive solutions that enhance the living experience. This recognition highlights the practical benefits of Source 10 for users, the industry, and stakeholders, emphasizing its innovative approach to optimizing smart home functionality.

Source 10 distinguishes itself through its intelligent integration of AI and IoT technologies, enabling seamless control and personalization of the home environment. The sleek, ultrathin metal body, crafted using advanced CNC machining and featuring distinctive glossy edges, embodies a harmonious fusion of modern aesthetics and cutting-edge technology. With its comprehensive suite of features, including smart scheduling, alarm settings, and information access, Source 10 serves as an all-in-one solution for elevating the smart living experience.
