

Junk Car Medics Reaches 5,000 Vehicles Purchased in Los Angeles

Leading junk car buyer doubles down on Southern California expansion with faster service and higher payouts

Los Angeles, CA – Junk Car Medics today announced it has purchased more than 5,000 junk, damaged, and unwanted vehicles in the Los Angeles metro area, marking a major milestone in one of the company's largest and fastest-growing markets.

The achievement reflects surging demand for hassle-free car disposal across Southern California, where residents are increasingly turning to modern, tech-enabled services that offer fair pricing and same-day convenience. As the company continues to expand its footprint in LA County and surrounding areas, Junk Car Medics is investing heavily in local infrastructure to maintain its position as the region's most trusted junk car buyer.

"Los Angeles has been an incredible market for us," said Todd Bialaszewski, Founder and CEO. "Hitting 5,000 vehicles shows that people want a better way to sell their old cars—one that's transparent, fast, and pays what their vehicle is actually worth. We're committed to pushing the envelope and becoming the top junk car buyer not just in LA, but across the entire United States."

Fair Pricing That Beats Local Junkyards

Junk Car Medics offers the most cash for cars in Los Angeles using a proprietary pricing model that goes beyond scrap metal value for cars. The company calculates offers based on scrap metal value, salvageable parts, and resale potential, enabling LA-area sellers to receive competitive, accurate quotes for vehicles in any condition.

From wrecked sedans in Glendale to old trucks in Pasadena, non-running SUVs in Long Beach, and high-mileage cars in Burbank, Junk Car Medics accepts vehicles throughout the metro area with same-day pickup available in most neighborhoods.

Service features include:

- Free quotes in 60 seconds or less

- Same-day pickup and free towing across LA County

- Cash or check payment on the spot

- No title? No problem—the company handles paperwork obstacles

- Licensed, insured, and eco-friendly disposal practices

With average payouts ranging from \$200 to \$5,000, the company often pays significantly more than traditional LA-area junkyards, which typically offer lowball prices based solely on vehicle weight.

Commitment to the Auto Salvage Industry and Southern California

As Junk Car Medics continues to grow its presence in Los Angeles, the company remains

committed to ethical practices and environmental responsibility. Every vehicle is processed through a network of certified recyclers and dismantlers, ensuring hazardous materials are disposed of properly and valuable components are returned to the automotive supply chain. "The auto salvage industry plays a critical role in sustainability, and that's especially true in a market as large as Los Angeles," Bialaszewski added. "We're proud to be part of that ecosystem and dedicated to raising standards across the board."

The company operates in all 50 states and has now purchased over 100,000 vehicles nationwide, with Los Angeles representing one of its most active markets. With thousands of five-star reviews from satisfied customers, Junk Car Medics continues to invest in technology and local partnerships to make selling a junk car faster and easier than ever.

About Junk Car Medics

Junk Car Medics is a nationwide cash for cars and vehicle recycling service helping Americans sell unwanted vehicles quickly and easily. Founded in 2016, the company has purchased over 100,000 vehicles nationwide using a modern pricing model and licensed buyer network that delivers fast offers and top-dollar payouts. Junk Car Medics is a recognized leader in car recycling, junk car removal, and vehicle disposal across the United States.
