

BassiliChat AI Platform Adopted in University Courses with Dr. Aiman Hanna

*Platform That Lets Students Compare ChatGPT, Claude, Gemini, Grok, DeepSeek, and Perplexity Side by Side
Also Featured on FOX2News*

MONTREAL, QUEBEC, CANADA, October 7, 2025 /EINPresswire.com/ -- BassiliChat (www.bassilichat.com), the Montreal-based AI platform that compares responses from the world's leading conversational systems, has been integrated into computer science and software engineering courses by Dr. Aiman Hanna, a distinguished professor at one of Canada's largest universities. The milestone was also highlighted in a recent feature on FOX2News, reinforcing the platform's growing impact on education and industry.

The graphic features a blue background with a network of white dots and lines. In the top right corner is the BassiliChat logo. On the left, the text reads 'ONE PROMPT. SIX AI RESPONSES.' with the tagline 'Compare chatbots instantly.' below it. In the center is a white circular icon with a blue 'B' and a brain-like pattern. On the right, a yellow starburst contains the text '6 ANSWERS IN 1 CLICK! 100% FREE (LIMITED TIME)'.

Discover how BassiliChat instantly compares the answers of six leading AI models in just one click.

“

Our goal is to equip students with real-world tools while teaching them to compare, evaluate, and innovate.”

*Computer Science and
Software Engineering*

Dr. Hanna introduced BassiliChat to provide students with meaningful, hands-on experience using advanced AI tools from the very start of their academic journey.

“Our goal is to equip students with real-world tools that broaden their technical skills while also teaching them to compare, evaluate, and innovate. BassiliChat provides students with a unique perspective by presenting multiple AI viewpoints simultaneously,” said Dr. Hanna.

POWERFUL FEATURES FOR STUDENTS, EDUCATORS, AND PROFESSIONALS

BassiliChat enables users to make faster, smarter decisions with AI by allowing them to:

- Compare instant responses from ChatGPT, Claude, Gemini, Grok, DeepSeek, and Perplexity side by side.
- Access concise AI-written summaries for quick understanding.
- Copy and paste relevant insights directly into notes, emails, or documents.

- Save past searches in a private archive for easy reference.

This combination makes BassiliChat both a learning accelerator in classrooms and a practical productivity tool for professionals.

FOUNDER'S STATEMENT

"Being featured on FOX2News and integrated into university classrooms validates our vision. BassiliChat is not just another chatbot—it's a complete AI comparison and productivity system designed to put the world's best AI minds at everyone's fingertips," said Joseph Bassili, Founder of BassiliChat.

ABOUT BASSILICHAT

BassiliChat is an AI-powered innovation platform founded in Montreal. With one click, it delivers, compares, and summarizes responses from the world's top conversational AI systems, including ChatGPT, Claude, Gemini, Grok, DeepSeek, and Perplexity. Designed for professionals, educators, students, and enterprises, BassiliChat makes AI more transparent, comparable, and effective for smarter learning and decision-making.

The image shows two promotional banners for BassiliChat. The top banner has a blue background with a white robot character on the left. It features the text "SEE ANSWERS SIDE-BY-SIDE." in large white letters, with "Save time testing AIs." below it. A laptop in the center displays the BassiliChat interface, which shows a comparison of AI responses. The BassiliChat logo and a Bitcoin-style logo are in the top right. The bottom banner also has a blue background with the same robot character. It says "TRY BASSILICHAT TODAY!" in white. A large QR code is on the right, with "SCAN ME" below it. The website "www.bassilichat.com" is at the bottom right. The BassiliChat logo and a Bitcoin-style logo are also present.
