

tip411's Cutting-Edge Anonymous Tip Technology Helps Law Enforcement Strengthen Community Engagement and Fight Crime

tip411, the nation's leading provider of anonymous tip platforms, is inviting law enforcement agencies from across the country to learn at IACP 2025 in Denver.

DENVER, CO, UNITED STATES, October 7, 2025 /EINPresswire.com/ -- [tip411](#), the nation's leading provider of anonymous tip platforms, is inviting law enforcement agencies from across the country to learn how its technology is advancing [community engagement](#), enhancing security, and producing measurable outcomes in public safety. You can see it live at Booth 1235 during the International Association of Chiefs of Police (IACP) Annual Conference & Exposition, October 18–21, 2025, in Denver, Colorado.

“

Across the country, law enforcement agencies of all sizes are seeing success using tip411 to strengthen trust, improve communication and get critical information they might not have received otherwise”

*Terry Halsch, President of
tip411*

“Across the country, law enforcement agencies of all sizes are seeing real success using tip411 to strengthen trust, improve communication, and get critical information they might not have received otherwise,” said Terry Halsch, President of tip411. “We’re proud to be helping more than 2,500 agencies build safer communities through stronger engagement with the public. I encourage everyone attending IACP 2025 in Denver to stop by Booth 1235, meet our team, and see firsthand how tip411 can help your agency better connect, engage, and protect the communities you serve.”

tip411 is a Key Tool for Community Engagement and

Safety

According to a recent feature in GovTech Magazine, tip411 is increasingly being used by government and law enforcement entities of all sizes as a potent solution to combat urgent community issues, including:

- Anonymous two-way communication: Citizens don't just send tips — they can engage in a

dialog (when appropriate) without ever disclosing their identities, which helps build trust and increases the likelihood of receiving reliable, timely information.

- Multi-channel reporting: Users can submit tips via dedicated mobile apps, text messages, email, and web-forms. Tips can include media attachments (photos, video, audio) to help provide rich detail.
- Human trafficking, school violence, and illegal drug activity, among others — tip411 enables the public to report incidents and suspicious behavior in these and other serious categories.
- Improved outcomes in schools: Where tip411 systems are implemented in school settings, there are correlations with reductions in violent incidents and a more secure climate for students and staff.

Security & Infrastructure That Law Enforcement Can Trust

tip411 does not just facilitate tip submission — it takes the responsibility of protecting sensitive data seriously:

- The platform was migrated to Amazon Web Services (AWS) FedRAMP Moderate infrastructure to strengthen data protection.
- Tipster anonymity and information integrity are built into the system architecture and processes. The platform is designed so that users can share critical information without fear of reprisal.

IACP 2025 —Visit tip411 at Booth 1235

At IACP 2025, agencies will have the opportunity to:

- See live demonstrations of the tip411 platform in action: app, dashboard, reporting workflows, media attachments, anonymization, security features.
- Talk directly with product experts about case studies in school safety, human trafficking, drug enforcement, and more.
- Explore custom configurations: How tip411 can be tailored to your jurisdiction's needs—whether rural, urban, large or small agency.
