Innovative Designs, Sustainable Glow, and Global Reach Redefine the Neon Experience. A Global Expansion That Lights Up Three Continents

AUSTRALIA, October 3, 2025

/EINPresswire.com/ -- Oasis Neon Signs, one of the world's fastest-growing providers of [custom neon signs](#), proudly announces the expansion of its LED neon collection across Australia, the United Kingdom, and the United States. Known for its craftsmanship, innovation, and customer-first approach, the company has taken a bold step to unify its global presence while keeping design flexibility and personalization at the heart of its offerings.

This expansion strengthens Oasis Neon Signs' commitment to making [personalised neon signs](#) accessible to homes, businesses, and event planners worldwide. Whether it's a wedding backdrop in Sydney, a retail shopfront in London, or a birthday celebration in New York, customers now have a seamless way to create and order bespoke neon that reflects their vision.

The Rise of Custom LED Neon

The neon industry has evolved significantly in recent years, moving away from fragile glass neon towards eco-friendly, long-lasting LED alternatives. Oasis Neon Signs has been at the forefront of this shift, offering custom LED neon signs that combine brilliant glow with energy efficiency and durability.

Unlike traditional neon, LED neon is safe to touch, lightweight, and shatter-resistant — making it

the perfect choice for households, retail environments, and large-scale commercial use. Customers can design neon signs for bedrooms, offices, restaurants, and storefronts, all while knowing their signage is built to last.

Personalisation at the Core

One of the key differentiators of Oasis Neon Signs is its emphasis on personalisation. The company has built its reputation by allowing customers to design unique pieces — from custom neon letters spelling a business logo, to romantic wedding signage featuring a couple's name, or even playful wall art for kids' rooms.

Customers can select fonts, colours, sizes, and backing styles to ensure their neon sign aligns with their theme or brand. Businesses benefit from high-quality shop signs and company logo neon that help them stand out in competitive markets, while individuals enjoy vibrant home décor that transforms ordinary walls into glowing statements.

A Sustainable Glow

Every sign uses low-voltage LED technology, which reduces carbon footprint while delivering consistent brightness and vivid colours. In addition, Oasis ensures that each neon piece is built with recyclable materials, making it a greener choice for both individuals and businesses.
