"I am honored to take on the role of APF Board President, leading an impressive group of professionals and volunteers, all who share APF's vision of a future where equitable access to proven, successful mental health services and training is a reality for all communities," said Tapper. "I have witnessed how the types of training and treatment that APF funds have changed and saved lives and am excited to amplify our impact. And I am honored and humbled to take on this role from Alec Miller, the co-founder of APF, and a true visionary and co-creator of Dialectical Behavioral Therapy for adolescents; It is a program that I have taken part in personally as a parent, and can directly vouch for how it saves lives and how it has changed my life - and those around me - for the better."
