

Global Immigration Partners Issues Statement on New H-1B Executive Order

new restrictions on the H-1B visa program. The order, effective September 21, 2025, introduces a one-time \$100,000 fee for all new H-1B petitions.

WASHINGTON DC, DC, UNITED STATES, October 5, 2025 /EINPresswire.com/ -- [Global Immigration Partners](#), a leading U.S. immigration law firm, today released a statement addressing the recent executive order imposing new restrictions on the [H-1B](#) visa program. The order, effective September 21, 2025, introduces a one-time \$100,000 fee for all new H-1B petitions filed from abroad and directs federal agencies to prioritise higher-paid and higher-skilled roles in visa allocation.

“This policy represents one of the most significant shifts in employment-based immigration in decades,” said Alexander Jovy, Co-Managing Partner at Global Immigration Partners. “While the stated goal is to strengthen U.S. competitiveness, the order imposes unprecedented financial and procedural barriers that could limit access to global talent and impact key sectors of the economy.”

The firm notes that the executive order has already created uncertainty for U.S. employers, universities, and foreign professionals. Many organizations are now reassessing whether the increased cost of sponsorship is sustainable, while others await further clarification from U.S. Citizenship and Immigration Services (USCIS) and the Department of Labor (DOL) regarding implementation and possible exemptions.

“

The new H-1B Executive Order policy represents one of the most significant shifts in employment-based immigration in decades”

Alexander Jovy

Global Immigration Partners is closely monitoring the potential for legal challenges, as many in the business and

academic communities contend that the new fee structure may exceed presidential authority

BIG CHANGES TO H-1B VISAS

A new executive order (Sept 2025) has shaken up the H-1B system:

- A \$100,000 fee now required for new petitions filed from abroad
- In effect for 12 months (through Sept 2026) — may be extended
- Priority to higher-paid/high-skill roles instead of pure lottery
- Unclear impacts on re-entry, transfers & exemptions

Employers, universities, and tech leaders are already pushing back — lawsuits expected.

For startups, researchers, and international talent, this could be a game-changer.

New H-1B Executive Order

and conflict with existing immigration statutes.

“We are advising our clients to stay informed, exercise caution, and plan strategically,” added Alxaner Jovy. “Until more detailed regulatory guidance or judicial rulings are issued, employers should carefully evaluate timing, budget implications, and alternative visa options.”

Global Immigration Partners will continue to provide updates and analysis as new information becomes available.
