Services Forklift Toronto Offers

24/7 Repairs & Maintenance

Forklifts don't follow a nine-to-five schedule, so neither do we. If one breaks down in the middle of a shift, call us. We'll send a mobile tech who knows exactly what to do and won't leave until the job's done.

Flexible Forklift Rentals

Some companies just need an extra lift for a week; others need several for months. We offer short- and long-term rentals that fit your workload. Electric, propane, counterbalance, reach trucks, you name it, we'll deliver it ready to run.

Custom Maintenance Plans

No two operations are the same. We'll build a plan that fits your equipment, your hours, and your budget so you're not stuck waiting for parts when you need to be moving product.

Quality Parts and Upgrades

We carry both OEM and aftermarket components. If a small part can add a few more years to your forklift's life, we'll make sure you have it.

Our clients range from small family-run shops to large manufacturing plants across the GTA, including Toronto, North York, Etobicoke, Scarborough, Mississauga, Brampton, Vaughan, and everywhere in between.

Our technicians are certified on every major brand out there. They're the kind of people who'd rather do the job right once than come back twice. They'll explain what went wrong, what needs attention, and what can wait, because no one likes surprises on the invoice.
