

Blu Abundance Showcases bluBudget at SuiteWorld 2025 — New NetSuite-Native Budgeting App Opens Doors for Partner Growth

bluBudget connects every project schedule and budget in real time — uniting finance and project teams inside NetSuite for faster, smarter decisions.

LAS VEGAS, NV, UNITED STATES, October 6, 2025 /EINPresswire.com/ -- [Blu Abundance Inc.](#), a Delaware-based SaaS company and member of the Oracle NetSuite SuiteCloud Developer Network (SDN), today announced it will showcase [bluBudget](#) at SuiteWorld 2025 in Las Vegas — the premier global gathering for the NetSuite community, where thousands of customers and partners explore the latest innovations..

bluBudget transforms spreadsheet overload into seamless, real-time clarity inside NetSuite — giving project and finance teams the insight to act faster and outperform.

bluBudget is a NetSuite-native application that gives project-driven businesses real-time visibility into costs, revenue, and margins — helping finance and operations teams move beyond spreadsheets and disconnected tools. Originally developed for solar and renewable energy companies operating in complex, capital-intensive environments, bluBudget now empowers all project-driven businesses to achieve the same level of financial control and insight.

“bluBudget gives project-driven businesses the clarity and confidence to scale,” said Jan Rippingale, CEO of Blu Abundance Inc. “When a project manager updates a schedule, the related budget adjustments happen automatically — saving hours of data entry, eliminating errors, and keeping accounting perfectly informed. It’s accuracy and efficiency made simple.”

For NetSuite partners, bluBudget represents both client ROI and partner growth:

- Faster forecasting — up to two weeks sooner than manual, spreadsheet-based methods.
- Margin protection — typically 2–3% through early variance detection.
- Rapid adoption — a familiar spreadsheet-style interface most users learn in under 30

bluBudget gives project and finance teams real-time clarity by connecting project schedules and budgets inside NetSuite — keeping everyone aligned and ready to act faster.”

Jan Rippingale - CEO, Blu Abundance Inc.

minutes.

- Executive clarity — portfolio-wide oversight and multi-project cash-flow visibility with audit-ready change logs that capture who made changes, when, and why.
- New consulting opportunities — partners can drive added services revenue through training, change management, and integration projects.

Unlike generic Financial Planning & Analysis (FP&A) platforms, bluBudget is purpose-built for industries with complex, multi-phase projects such as solar, construction, and professional services. It integrates directly with

NetSuite, ensuring budgets always stay aligned with schedules and actuals in real time.

Early client feedback has been overwhelmingly positive:

- One financial leader called bluBudget “the first time we’ve had one version of the truth across project teams and finance — it has saved us weeks in reconciliation.”
- Project managers describe it as “an intuitive tool that finally connects what’s being spent to what’s planned.”

bluBudget builds on Blu Abundance’s proven portfolio of NetSuite-native applications:

- SolarSuccess: award-winning ERP for solar installers, cutting costs per watt and reducing project-to-cash timelines.
- bluChat: real-time, context-driven team chat inside NetSuite.
- bluDocs: smart document management leveraging NetSuite’s single source of truth.
- bluTime: mobile timekeeping and project management for field and construction teams.
- bluPay: integrated payment processing in NetSuite, enabling faster collections, easier reconciliation, and stronger cash flow.

Together, these apps extend NetSuite for project-driven businesses, helping partners deliver sticky, high-value solutions that boost productivity, strengthen financial oversight, and streamline daily operations.

About Blu Abundance Inc.

Blu Abundance delivers powerful native applications that transform the NetSuite experience. Its portfolio — SolarSuccess, bluChat, bluDocs, bluTime, bluPay, and bluBudget — helps companies run more profitably and efficiently from the field to the finance office. By building directly on the NetSuite platform, Blu Abundance delivers smoother integration, faster performance, and more user-friendly functionality than generic third-party tools.

Blu Abundance’s mission is to help companies deploy, manage, and grow more efficiently

through the power of connected, NetSuite-native solutions.

SuiteWorld attendees and NetSuite partners can see live demos of bluBudget at Booth #319 or visit www.bluabundance.com for more information.

Note: Blu Abundance Inc. is a member of the Oracle NetSuite SuiteCloud Developer Network (SDN). This membership allows Blu Abundance to use Oracle's SuiteCloud technologies to build apps that interoperate with the Oracle NetSuite service. This relationship is not a partnership, joint venture, or agency agreement. Any references to Oracle or NetSuite are for descriptive purposes only, and no endorsement by Oracle should be implied.
