3 Days to Change How You See AI Forever:

AI is transforming how the world works — and for many, it's happening faster than they can keep up. That's why Robbins and Graziosi created the AI Advantage Summit: to simplify AI for real people and show them how to use it to work smarter, not harder.

"This event isn't about hype or fear," said Graziosi. "It's about practical steps anyone can take to use AI to create freedom, efficiency, and opportunity."

Across three packed days, attendees will learn directly from Robbins, Graziosi, and a lineup of top global leaders and innovators, including:

- Marc Benioff, Founder & CEO of Salesforce
- Allie K. Miller, AI investor and educator
- Igor Pogany, Founder of My AI Advantage

- Rachel Woods, Founder of The AI Exchange
- Arthur Brooks, Harvard professor and bestselling author
- And other top AI Experts from around the world

What to Expect Inside the Summit -- [Each day of the AI Advantage Summit is built](#) to deliver one clear transformation:

Day 1: Mindset Shift – Replace confusion and overwhelm with clarity and confidence.

Day 2: Strategy & Systems – Discover simple ways to reclaim hours each week using AI tools and workflows.

Day 3: Real-World Application – Learn from proven entrepreneurs already using AI to grow their income, impact, and influence.

Participants will leave with a concrete action plan they can apply immediately, not just theory.

Why It Matters Now:

AI is no longer optional. According to recent studies, over 90% of businesses will use AI in some capacity by 2026, but most will struggle to adapt without clear guidance. Robbins and Graziosi aim to change that.

“The world doesn’t wait for anyone,” Graziosi said. “If you don’t understand how to use AI to your advantage, you risk being left behind. This Summit is about giving people the tools and confidence to lead, not follow, in this new era.”

How to Join:

The AI Advantage Summit is completely free to attend and accessible from any device. Attendees can join from home, the office, or on the go.
