

CareNiva Powers the Future of Telehealth with Scalable, AI-Driven Platform for Nationwide Virtual Care

All-in-one solution helps providers launch HIPAA-compliant telehealth practices—fast and at scale

NEWPORT BEACH, CA, UNITED STATES, October 7, 2025 /EINPresswire.com/ -- CareNiva, the [telehealth](#)-first platform, today announced continued growth as the go-to infrastructure for providers, clinics, and healthcare entrepreneurs looking to launch and scale AI-powered, end-to-end telehealth practices across the U.S.

CareNiva offers a turnkey telehealth solution that supports every stage of virtual care - from customizable patient intake to AI-generated documentation, insurance eligibility, e-prescribing, and secure HIPAA-compliant video visits. Designed for solo providers, wellness brands, and multi-location health systems alike, the platform enables users to launch operations in days - not months.

“We didn’t want another partial telehealth solution. With CareNiva, we got the entire engine,” said a multi-state healthcare operator. “From intake to charting to video visits, it’s all in one place.”

Built for Healthcare Founders, Operators, and Innovators

CareNiva was purpose-built to eliminate the complexity of launching a telehealth business. Providers no longer need to piece together fragmented tools. With CareNiva, users benefit from:

- Multi-state and multi-location support
- AI-powered scribe for automated clinical notes
- Real-time insurance verification and e-prescribing

All-in-One Telehealth Platform

- Digital consent, patient forms, and integrated payments

AI That Works the Way Providers Do

At the center of the platform is CareNiva AI Scribe, a real-time documentation assistant that creates SOAP notes and visit summaries automatically. Unlike rigid templates, CareNiva's AI can be trained to reflect each provider's unique clinical style, offering unprecedented flexibility and accuracy.

"The AI scribe learns how we work. It feels like I have a custom assistant built just for my practice," said a family medicine physician using CareNiva.

Launch Small or Scale Nationally

Whether you're starting a solo virtual clinic or expanding a multi-location group, CareNiva acts as a [telehealth growth partner](#) by offering:

- Instant deployment with no-code onboarding
- Operational and clinical workflow support
- Nationwide scalability across practices and teams
- Built-in HIPAA compliance from day one

A [Telehealth Platform](#) Built to Lead the Industry

With demand for digital-first care accelerating, CareNiva is emerging as a category-defining platform that gives providers a competitive edge through automation, regulatory compliance, and operational efficiency.

"We are just getting started," said Jay Talaviya, CEO and Co-Founder of CareNiva. "We are building the foundation for modern care delivery. We have made telehealth truly turnkey - so healthcare organizations and providers can focus on building their brand, growing their patient base, and delivering exceptional care."

Investor and Market Momentum

CareNiva is gaining traction across online care companies, urgent care chains, wellness clinics, behavioral health practices, and health systems - positioning the company for strategic partnerships and investor growth.

"CareNiva isn't just a telehealth platform - it is a scalable infrastructure play with the potential to reshape virtual care delivery nationwide," said a digital health investor familiar with the company.

Explore CareNiva Today

Whether you are launching your first virtual practice or expanding across multiple markets, CareNiva provides the speed, tools, and support to do it right.
