Customer Experience and Quality Standards

Star Ready To Move Homes maintains quality control through facility-based construction, ensuring consistent standards across all builds. Customer testimonials reflect satisfaction with both product quality and service delivery.

"RTM Home. STAR did a wonderful job in our semi finished homestead. The craftsmanship is top of the line. Been a year since STAR delivered our home and although we are still working on it, STAR is still assisting us on trades people and giving us suggestions. Their responsibilities are done but yet they are so accommodating. Everybody at STAR are professionals. Would recommend them highly. Their list of trades people are also highly recommended (Interlaken Forms, Elite Plumbing, Martin Electric, Friesen Drillers and Daryl's Eavestrough). Thank you all for a wonderful job. ☺" - Eranio B.

Leland H. shared his building experience: "If you're looking to build a custom home, or copy one of their existing plans, this is the place to go. Star homes made the process very easy, they maintained contact throughout the entire process of building. My interaction was very pleasurable and a easy experience building my first home thanks to them! I would definitely recommend them and use them again in the future!"

Star Ready To Move Homes provides services to clients across Manitoba and Saskatchewan, with delivery capabilities extending throughout Manitoba and Saskatchewan. The company serves residents in Regina, Saskatoon, and communities across both provinces through their established transport network.

Karen L. described her cottage building experience: "Had a wonderful experience with Star as they built a cottage for our family. Sean was very patient with my many requests for revisions and Shay went above and beyond to ensure every last detail was built to last."

The company offers seasonal promotions on ready-to-move homes, built-on-site homes, cottages, garages, and sheds. These limited time offers provide additional value for homebuyers considering RTM options. Feature homes of the month showcase various models including stock homes and cottage shells.

Mr. Meseman noted the company's approach: "We understand that choosing a home represents a significant investment. Our process provides homebuyers with predictable costs, quality control, and energy-efficient construction through our controlled facility environment."

Star Ready To Move Homes operates with three decades of experience in the RTM sector, building on a foundation established in 1952 as Star Building Materials. The company transitioned into ready-to-move home construction thirty years ago, recognizing market demand for quality and affordability across Manitoba and Saskatchewan.

The company maintains its original mandate of providing value and service to customers, whether purchasing home packages, building custom homes, or adding functional structures like garages, decks, or sheds.
