There are prominent key factors that drive the growth of the motorcycle ADAS market, such as increase in demand from customers for technologically advanced motorbikes, surge in number of road accidents, and rise in demand for advanced motorcycles. The market economy is also responsible for the growth of the market. Countries such as China, India, Brazil, and South Africa are growing economies. Thus, the manufacturing sector has witnessed prominent growth in these countries, which is expected to provide lucrative opportunities for the growth of the automotive industry, which in turn, is expected fuel the market. In addition, in some

undeveloped countries, there is an increase in vehicle sales, which is expected to boost the motorcycle ADAS market.

The Motorcycle ADAS market is segmented basis of propulsion, component, system, sales channel, price range, and region. By propulsion, it is divided into gasoline, and electric. By component, it is segmented into ECU, Sensors, gear assistors and others. By system, it is divided into ABS, ACC, TCS, and others. By sales channel, the market is divided into OEM, and Aftermarket. By price range, the market is divided into Low, Medium, and High. By region, the market is analyzed across North America, Europe, Asia-Pacific and LAMEA.

The ABS segment serves as the top investment pocket for investors to capitalize in the near future and is anticipated to be the most lucrative segment in the global market, owing to increase in demand for luxury two wheelers with advanced ADAS and safety features in developing countries.

Report ID: 7524 Report Title: Motorcycle ADAS Market

The COVID-19 impact on the motorcycle ADAS market is unpredictable, and is expected to remain in force for a few years.

The COVID-19 outbreak forced governments across the globe to implement stringent lockdown and ban import-export of essential raw material items for most of 2020, and few months in 2021.

This led to sudden decline in availability of important raw materials for vehicle components.

As a result of interrupted supply chains and production schedules caused by the COVID-19 pandemic, aviation production and sales suffered severely, which, in turn, negatively impacted the market for motorcycle ADAS market in 2020.

To prevent the spread of the COVID-19 virus, governments across the globe implemented strict lockdowns and made social distancing mandatory.

Consequently, several organizations began work from home programs as precautionary measure.

This led to a sudden decline in global demand for traveling, which has affected the motorcycle ADAS market

However, vaccination drive enabled lowering of barriers to economic activity, as well as domestic

and international travel.

As the restrictions lifted, travel recovered quickly leading to increase in vehicle commutation which expected to boost the motorcycle ADAS market

By propulsion, the Electric segment is expected to register a significant growth during the forecast period.

By component, the sensors segment is projected to lead the global motorcycle ADAS market

By system, the ABS segment is projected to lead the global motorcycle ADAS market

By Sales Channel, the aftermarket segment is projected to lead the global motorcycle ADAS market

By price range, the medium segment is projected to lead the global motorcycle ADAS market

Region-wise, Asia-Pacific is anticipated to register the highest CAGR during the forecast period.

Region-wise, Asia-Pacific is anticipated to register the highest CAGR during the forecast period.
