

PRC Technologies Unveils PRC Crypto Coin: The Blockchain Solution Powering Real-World Payments for College Students

PRC Technologies introduces PRC Crypto Coin—real-world crypto payments for students with built-in parental funding and spending control.

ARLINGTON, TX, UNITED STATES, October 7, 2025 /EINPresswire.com/ -- PRC Technologies, a leader in blockchain-driven financial innovation, today announced the official minting and [private pre-sale](#) of the PRC Crypto Coin, a new digital currency designed to simplify how college students manage and pay for everyday essentials.

PRC Coin - Crypto Currency for Student Spending

Built for real-world utility, PRC Crypto Coin bridges the gap between digital assets and student life. The coin enables students to pay directly for rent, groceries, textbooks, meals, and transportation, while parents gain real-time visibility and control over how funds are used.

“

We're taking cryptocurrency beyond speculation. PRC Crypto Coin gives students financial freedom and parents peace of mind through secure, real-world blockchain payments.”

*Charles Williams
Founder/CEO*

Making Crypto Useful for the Real World

As the global shift toward tokenized real-world assets (RWA) accelerates, PRC Crypto Coin provides a tangible use case in the education sector. The token operates within a closed ecosystem that connects students, parents, universities, and housing providers, ensuring funds are

used responsibly and securely.

Parents can fund a student wallet using traditional currency and set custom spending rules. Students can then access those funds through the PRC Exchange, mobile app, or branded debit

card—all powered by blockchain technology for speed, security, and transparency.

Key Features

- Real-World Utility: Spend crypto on rent, food, and academic essentials.
- Parental Oversight: Set limits and track transactions in real time.
- Multi-Platform Access: Use funds via website, app, or debit card.
- Blockchain Security: Every transaction is transparent and verifiable.
- Focus on Education: Reduces financial stress so students can focus on learning.

Roadmap and Expansion

PRC Technologies plans to expand PRC Crypto Coin adoption to universities and student housing partners nationwide by Q1 2026, establishing a new standard for digital payments in higher education.

Upcoming features include merchant integration, cash-back rewards, and [university partnership programs](#), positioning PRC Technologies as a pioneer in the next generation of financial ecosystems for education.

About PRC Technologies

PRC Technologies Inc., headquartered in Arlington, Texas, develops blockchain and fintech solutions that connect digital assets to real-world applications. The company's mission is to create secure, transparent, and user-friendly tools that redefine how people interact with money in an increasingly digital economy.
