## A MedSpa for Hair

Since acquiring the salon in August 2024, Thompson has transformed Michael Thomas Hair Design into a wellness-driven salon, where clients enjoy personalized treatments built on science, artistry, and luxury. Each visit begins with a microscopic scalp and hair analysis using Kérastase's AI-powered K-SCAN, a tool that provides a detailed assessment of scalp health and strand condition.

This advanced consultationone of the first in Southwest Florida allows stylists to identify early signs of dryness, thinning, and damage, creating a foundation for customized care. From there, clients receive a personal “Hairscription”a plan combining vitamin infusions, protein reconstruction, and scalp pre-treatments tailored to restore and maintain long-term hair health.
