

Aurora Payments Partners with Clarity to Power Embedded Payments in Clarity POS

Jewelers using Clarity POS gain faster checkouts, secure transactions, and simplified daily operations through ARISE—Aurora's embedded payments integration.

TEMPE, AZ, UNITED STATES, October 9, 2025 /EINPresswire.com/ -- Aurora Payments, a full-service payments provider, today announced a strategic partnership with Clarity, the cloud-based point-of-sale platform built exclusively for jewelry retailers. This collaboration brings Aurora's embedded payments platform, ARISE, into the Clarity ecosystem—delivering a seamless, integrated solution that enhances efficiency and unlocks new value for jewelers.

Aurora Payments

Clarity

“Working with Clarity gives us the opportunity to deliver an integrated payment experience tailored to the unique demands of jewelry businesses,” said John Badovinac, SVP of Embedded Commerce at Aurora Payments. “Whether it’s a custom engagement ring or a routine repair, our goal is to make the payment process effortless so jewelers can focus on craftsmanship and client relationships.”

Working with Clarity gives us the opportunity to deliver an integrated payment experience tailored to the unique demands of jewelry businesses.”

John Badovinac

Built from the ground up to serve the specialized needs of jewelers, Clarity supports key features such as repair tracking, custom orders, consignment management, and client text messaging.

Now, with ARISE fully embedded, Clarity users gain even more capabilities, including faster checkout and billing that

enables them to manage in-store sales, custom jobs, and repairs through a unified platform.

Secure payment processing ensures every transaction is protected with PCI compliance, tokenization, and fraud detection. And simplified daily operations help streamline reporting and reconciliation with accurate, end-of-day summaries.

“We built Clarity to be simple and powerful. Jewelers needed a POS that understands their world, from custom designs and trade-ins to consignment and service work,” said Waqas Saeed, Founder of Clarity. “With Aurora integrated, payments become one less thing to worry about.”

As point-of-sale platforms continue to evolve, Aurora’s embedded payments platform enables software providers like Clarity to meet merchant expectations for seamless transactions while creating consistent revenue opportunities with every sale.
