

Breakthrough Oral Cancer Course Now Live

From early detection to survivorship, this CE-accredited course arms healthcare professionals with the tools to save lives

NEW YORK, NY, UNITED STATES, October 8, 2025 /EINPresswire.com/ -- Oral cancer continues to be one of the deadliest yet most overlooked cancers, largely due to late detection and gaps in interdisciplinary care. Oral cancer cases are projected to reach 600,000 by 2045. A revolutionary solution is now here: "Comprehensive Oral Cancer Care: From Diagnosis to Survivorship," a fully self-paced, asynchronous virtual course that healthcare professionals can begin immediately.

Developed by [Dr. Parul Dua Makkar](#), dentist, speaker, advocate, and author, this course is designed to arm dentists, physicians, oncologists, ER professionals, nurses, and allied health providers with the tools they need to detect oral cancer earlier, intervene more effectively, and improve survival rates worldwide.

This isn't a one-time seminar or passive lecture series. The program comprises 11 robust modules that participants can complete at their own pace, making it practical for busy healthcare professionals. Each module integrates:

- Early Detection & Screening – Step-by-step mastery of the latest techniques
- Documentation & Diagnosis – How to properly record lesions and red flags
- Oral-Systemic Links – Understanding the mouth-body connection
- Treatment & Survivorship – Tools for diet, wound care, burn care, and exercise
- Mental Health & Grief – Addressing the emotional impact on patients and providers
- Emerging Risks – What every professional must know about HPV, vaping, and more

Case studies, expert insights, and practical strategies bring the material to life. Upon completion, participants earn CE credits and a certificate, underscoring both their professional development

A promotional graphic for a free CE webinar. The top half has a dark teal background with the text "Join us! FREE CE WEBINAR" in white and yellow. Below this, in smaller white text, it says "FOR DENTISTS, HYGIENISTS, + HEALTHCARE PROVIDERS". A QR code is in the top right. The bottom half has a light blue background. On the left, there's a red circular icon with a white headset and the word "WEBINAR" in a black box. Below that, the title "When the Mouth Speaks Before the Body" is in bold black. Underneath the title, the date and time "29 October 2025 8:00 PM EST" are in white on an orange background. To the right of this text is a photo of Dr. Parul Dua Makkar, a woman with dark hair wearing a green top. Below the photo, it says "WITH DR. PARUL DUA MAKKAR". At the bottom, a black bar contains the website "WWW.DUAGOODJOB.COM/WEBINAR" in white. The entire graphic is decorated with several red and white ribbons, which are symbols for oral cancer awareness.

If we can train more providers to recognize early warning signs and collaborate across specialties, we can save lives. This course allows anyone, anywhere, to access this knowledge right now.”

Dr. Parul Dua Makkar

and their dedication to patient care and survival.

Dr. Makkar’s motivation is deeply personal. After losing her younger brother, Dr. Manu Dua, to oral cancer, she transformed her grief into advocacy. She authored *Life Interrupted: Dr. Dua’s Survival Guide* and has become a leading voice for oral cancer awareness, serving as a Wellness Ambassador for the American Dental Association and speaking at major medical and dental conferences.

“Oral cancer doesn’t have to be a death sentence,” said Dr. Makkar. “If we can train more providers to recognize early

warning signs and collaborate across specialties, we can save lives. This course allows anyone, anywhere, to access this knowledge right now.”

Enrollment Now Open:

Format: 100% virtual, self-paced, asynchronous

Modules: 11 comprehensive lessons

Credits: CE credits + certificate of completion

Bonus: Free copy of *Life Interrupted* + exclusive course swag delivered by mail
