

Camelot Secure and DigiFlight Win Top Honors at Maryland's Cybersecurity Association 2025 Cybersecurity Awards

COLUMBIA, MD, UNITED STATES, October 9, 2025 /EINPresswire.com/ -- Camelot Secure, a revolutionary cybersecurity company, and its parent company [DigiFlight](#), today announced they have won top honors at the 2025 Cybersecurity Awards hosted by Maryland-based [The Cybersecurity Association, Inc.](#) Camelot Secure was named Changemaker of the Year, and DigiFlight received the Government Contractor of the Year award. These accolades underscore Camelot Secure's commitment to training new cybersecurity professionals and DigiFlight's impact as a trusted government partner.

Stan Oliver, CEO of Camelot Secure and DigiFlight

The high-profile recognition reflects Camelot Secure's groundbreaking work in fostering new pipelines of cybersecurity talent through its partnerships with Universities and Historically Black Colleges and Universities (HBCUs). These initiatives empower students through real-world projects, capstones, internships, and hands-on use of Camelot Secure's Secure360 platform, expanding the cybersecurity talent pool.

Additionally, DigiFlight's government contracting leadership was honored for its innovative business model, which combines cyber training, training and testing as a service (T2aaS), and scenario-driven post-incident response exercises. By blending technical expertise with C-suite readiness, DigiFlight delivers holistic risk management capabilities to government clients and contractors, strengthening national security.

"We are truly humbled to be recognized as winners by The Cybersecurity Association," said Stan Oliver, CEO of Camelot Secure and DigiFlight. "Diversity and public service are at the heart of our mission, and these honors reflect the hard work of our team and partners. Whether through our university collaborations or our support of government and clients, we remain committed to

advancing security and resilience for all organizations in today's complex threat landscape."

About The Cybersecurity Association

The Cybersecurity Association, Inc. (formerly the Cybersecurity Association of Maryland, Inc. or CAMI) is a 501(c)(6) nonprofit organization established in 2015. The Association serves as a trusted community for companies that view cybersecurity as a strategic issue, providing an ecosystem of advocacy, education, and connection.

About Camelot Secure

Camelot Secure is a leading cybersecurity company taking a revolutionary approach to digital defense. Unlike traditional reactive models, Camelot Secure operates from a threat perspective—proactively identifying and mitigating risks before they escalate. The firm brings together experts from the military, intelligence community, and private sector to offer cutting-edge solutions like persistent APT hunt tools and attack surface monitoring.
